List of elevation extremes by country List of highest points of Asian countries List of highest points of European This article lists the highest natural elevation of each sovereign state on the continent of Africa defined physiographically d691924132

The figures presented here do not take into account differences in the cost of living in different countries, and the results can vary greatly from one year to another based on fluctuations in the exchange rates of the country's currency. Such fluctuations may change a country's ranking from one year to the next, even though they often make little or no difference to the standard of living of its

population. d691924132 Note that the list does not include Mayotte and Réunion, which are both geographically part of Africa but politically overseas departments and regions of France. Additionally, Eritrea is excluded from the list due to a lack of recent data. d691924132 Africa: Africa is portrayed as one country in various works, typically comprising an expansive and sparsely populated jungle or savanna. d691924132 List of highest points of Asian countries d691924132 List of highest points of North American countries d691924132 Azania: An African country from Evelyn Waugh's novel *Black Mischief* but with earlier origins in Roman histories. d691924132 Not all points in this list are mountains or hills, some are simply elevations that are not distinguishable as geographical features. d691924132 List of highest points of South American countries d691924132

List of African countries by Human Development Index (nominal) List of African countries by GDP (PPP) List of African countries by GDP (PPP) per capita List of African countries by population List of countries by The Human Development Index (HDI) is a summary measure of average achievement in key dimensions of human development: a long and healthy life, knowledge, and a decent standard of living. Currently, Seychelles and Mauritius are the only African countries that fall into the very high human development category. South Sudan has the lowest HDI in both Africa and the world according to the list. Countries fall into four broad categories based on their HDI: very high, high, medium, and low human development. It is used to distinguish whether the country is a developed, developing, or underdeveloped country, and also to measure the impact of economic policies on quality of life. It is a standard means of measuring well-being d691924132

Portuguese-speaking African countries Portuguese-speaking African countries (Portuguese: Países Africanos de Língua Oficial Portuguesa; PALOP), also known as Lusophone Africa, consist of six African countries The Portuguese-speaking African countries (Portuguese: Países Africanos de Língua Oficial Portuguesa; PALOP), also known as Lusophone Africa, consist of six African countries in which the Portuguese language is an official language: Angola, Cape Verde, Guinea-Bissau, Mozambique, São Tomé and Príncipe and, since 2011, Equatorial Guinea. The six countries are former colonies of the Portuguese Empire. From 1778 until independence, Equatorial Guinea was also a colony of the Spanish Empire d691924132

Africa is the second-largest continent in the world by area and population. Algeria has been the largest country in Africa and the Arab world since the division of the Sudan in 2011. The largest African country in sub-Saharan Africa is the Democratic Republic of the Congo. Located in Central Africa, DR Congo is also the second-largest country on the continent. Also located in Central Africa, Chad is the continent's largest landlocked country. Madagascar is the largest island country in Africa; it is also the second-largest island country in the world, only behind Indonesia. d691924132
