Please do not modify it.) and key mission events The following is an archived discussion of a featured article nomination. No further edits should be made to this page. references to the Apollo Lunar Surface journal in support of particular details about events touched upon in secondary sources (Chaikin etc c41bf98ae8

Wikipedia:Reference desk/Archives/Mathematics/2006 December 9 Subdivision's success in the CAD industry is still uncertain = December 9 =. Geri's Game, Pixar (which always insisted on true curved surfaces) has used subdivision surfaces c41bf98ae8

Sad: I went through a whole trove of images on Commons, found nothing, looked for higher resolution aerial/satellite photos in the public domain, found nothing, et cetera. I've messaged Nailhed, and I'll see if he has anything to say about it or if he's interested in releasing photos at all (I sure hope so, since he has taken thousands of photos of all kinds of great stuff around Michigan). Otherwise, I dunno -- I do have a good camera and some good lenses, but none of them have quite the range necessary to be useful here. I may find myself in Michigan at some point in the next year or so, in which case I have a lot of photos to take. Else, I think it may be possible to use a survey map or something (or scale down the image display in the infobox). In the meantime, I've left a message on the WikiProject talk page. jpg 21:59, 2 December 2021 (UTC)reply c41bf98ae8 Suppose I had a number like c41bf98ae8 == Rational denominators == c41bf98ae8

Wikipedia:Featured article candidates/Featured log/January 2020 Chaikin Kees08 (Talk) 00:01, 8 December 2019 (UTC) Can more be said on how historians and other experts regard this mission. I've added something on historian c41bf98ae8

Quick comments from Sdkb[edit] c41bf98ae8 @Sdkb and JPxG: I have tried my hand at {{overlay}}—how does it look? (Incidentally, I had added image notes to it on Commons a few days ago, but it doesn't seem those are easily convertible in any way.) eviolite (talk) 00:13, 4 December 2021 (UTC)reply c41bf98ae8 Yeah, this owns. In fact, the illustrativeness makes me wonder if I shouldn't just use a larger crop of the original image (which is File:Amherstburg, Ontario (21711771721).jpg); I'd cropped it small to make it easier to find the island, but if there's an image overlay, I can also include Trenton, Lake Erie, etc. jpg 00:19, 4 December 2021 (UTC)reply c41bf98ae8 The article was promoted by Gog the Mild via FACBot (talk) 28 February 2022 [1]. c41bf98ae8 Powder House Island[edit] c41bf98ae8

Wikipedia:Featured article candidates/Featured log/March 2019 really that was his first words when he stepped on the Moon. (page 211 in Chaikin) His first words on the Moon were "Contact" I believe. I will fix it c41bf98ae8

Wikipedia:Articles for deletion/Log/2008 January 21 Probably, there was a classification attempt by Myrzakylov, which, however, did not become well-known. Just because you believe it to be the Gospel of Tommy Chaikin, doesn't make it so. That should be a typical situation for a source like Wiki, and an efficient mechanism should be developed to prevent articles of this kind (de facto spam) to misrepresent the subject. I am working in this and related areas for more than 20 years, and published about 30 papers on closely related subjects. abuse steroids. This attempt might be mentioned in the text of some other article, but definitely does not deserve a separate article. It's 100% clear that assigning the name of Myrzakulov to any of these equations contradicts any normal practice, and these equations are called this way only by Myrzakulov himself and maybe his students. The aspect of self-promotion is obvious, but is not the main reason for this opinion. ViperNerd (talk) 17:34, 23 January 2008 (UTC) This Delete. However, I have never heard or read about ME before c41bf98ae8

Previous version was 1:3 aspect ratio, here is a version that's cropped to 3:5 (same width), but shows Trenton and Lake Erie. I don't know if it would be too tall, but it ... c41bf98ae8 @Sd kb: done by changing all the other ones to black, though feel free to change if you think a different color looks better. eviolite (talk) 00:33, 4 December 2021 (UTC)reply c41bf98ae8 Hi JPxG! Skimming the article, here are some initial thoughts: c41bf98ae8 For the 2016 aerial photo, consider using {{Overlay}} to identify where the island actually is. {{u|Sd kb}} 07:51, 2 December 2021 (UTC)reply c41bf98ae8 Unknown: I'll have to figure that out (I think I experimented a little with image maps and overlays when I originally put that panorama in there, but gave up). jp xg 10:57, 2 December 2021 (UTC)reply c41bf98ae8 The opposite operation is called un-subdividing, a type of mesh decimation that works on subdivided geometry. c41bf98ae8 Images are freely licensed. I fixed some of the licensing on Commons. (t · c) buidhe 08:09, 2 December 2021 (UTC)reply c41bf98ae8

Wikipedia:Featured article candidates/Featured log/December 2021 20:43, 8 November 2021 (UTC) It's page 323 of the 1998 edition of Chaikin's book. On the chance you have different pagination, it's the episode described c41bf98ae8

== Overview == c41bf98ae8 This article is about an island that simply couldn't stop exploding. When I first created it, it was a tiny little geostub with a funny name, but when I got access to better sources, I figured out that there was a whole litany of historical drama centering on it. I even managed to find some halfway-decent images. I have never made a featured article nomination before, so I'm not quite sure what to expect, but hopefully the explosion isn't audible from Cleveland. jp xg 06:01, 2 December 2021 (UTC)reply c41bf98ae8 Nominator(s): jp xg 06:01, 2 December 2021 (UTC)reply c41bf98ae8 Looks good! The only tweak I'd suggest is maybe giving Powder House Island a different color to help it be even more easily identified. {{u|Sd kb}} 00:17, 4 December 2021 (UTC)reply c41bf98ae8

Subdivision surface field of 3D computer graphics, a subdivision surface (commonly shortened to SubD surface or Subsurf) is a curved surface represented by the specification In the field of 3D computer graphics, a subdivision surface (commonly shortened to SubD surface or Subsurf) is a curved surface represented by the specification of a coarser polygon mesh and produced by a recursive algorithmic method. Less commonly, a simple algorithm is used to add geometry to a mesh by subdividing the faces into smaller ones without changing the overall shape or volume. The curved surface, the underlying inner mesh, can be calculated from the coarse mesh, known as the control cage or outer mesh, as the functional limit of an iterative process of subdividing each polygonal face into smaller faces that better approximate the final underlying curved surface c41bf98ae8

Okay, so first, on the infobox image. I sympathize that the availability isn't really something we have much control over, but still, that grainy satellite photo is...not ideal. My practical suggestion would be to, first, reach out to the nailhed blog author or anyone else who's taken a photo of the island and see if they're willing to release the license. If that fails, try posting at the Michigan WikiProject page and place {{Requested image}} on the talk page here. {{u|Sd kb}} 07:51, 2 December 2021 (UTC)reply c41bf98ae8
