

Google Photos Initial Release Date

== Features == In 2024, Photos transitioned from the Universal Windows Platform (UWP) to the Windows App SDK. The app began running in the background at Windows' startup in order to improve the app startup speed, being also integrated into File Explorer's context menu. Due to low user engagement and disclosed software design flaws that potentially allowed outside developers access to personal information of its users, the Google+ developer API was discontinued on March 7, 2019, and Google+ was shut down for business and personal use on April 2, 2019.

Google Glass the public on April 15, 2014. Google Glass was launched in 2013 but pulled in 2015, just seven months after its UK release, after a backlash around price

Google public via an initial public offering (IPO) in 2004. has been described as a Big Tech company. It has been referred to as "the most powerful company in the world" by the BBC, and is one of the world's most valuable brands. In 2015, Google was reorganized as a wholly owned subsidiary of Alphabet Inc. Google is Alphabet's Google LLC (, GOO-gəl) is an American multinational technology corporation focused on information technology, online advertising, search engine technology, email, cloud computing, software, quantum computing, e-commerce, consumer electronics, and artificial intelligence (AI). Google's parent company Alphabet Inc

Google Workspace This will not affect access to other Google Services, including YouTube, Google Photos, and Google Play, nor paid content, including YouTube and. status

== History ==

Photos (Windows) It was first included in Windows 8 in 2012 as a functional replacement for Windows Photo Viewer and Windows Photo Gallery. In 2017, it replaced Windows Movie Maker. Photos includes all features from Windows Photo Viewer except the Burn Microsoft Photos is an image viewer and image organizer developed by Microsoft. to the app after the initial release on Windows 10 in response to user feedback

Google Chrome Google Books, and mentioned it on their official blog along with an explanation for the early release. The product was named "Chrome" as an initial development

After the success of its original service, Google Search (often known simply...

Google Buzz On October 14, 2011, Google announced. links, photos, videos, status messages and comments organized in "conversations" and visible in the user's inbox

The service automatically analyzes photos, identifying various visual features and subjects. Users can search for anything in photos, with the service returning results from three major categories: People, Places, and Things. The computer vision of Google Photos recognizes faces (not only those of humans, but pets as well), grouping similar ones together (this feature is only available in certain countries due to privacy laws); geographic landmarks (such as the Eiffel Tower); and subject matter... Google was founded in 1998 by American computer scientists Larry Page and Sergey Brin. Together, they own about 14% of its publicly listed shares and control 56% of its stockholder voting power through super-voting stock. The company went public via an initial public offering (IPO) in 2004. In 2015, Google was reorganized as a wholly owned subsidiary of Alphabet Inc. Google is Alphabet's largest subsidiary and is a holding company for Alphabet's internet properties and interests. Sundar Pichai was appointed CEO of Google in 2015, replacing Larry Page, who became the CEO of Alphabet. In 2019, Pichai also became the CEO of Alphabet.

Google Photos Users can upload their photos Google Photos is a photo sharing and storage service developed by Google. It was announced in May 2015 and spun off from Google+, the company's former social network. Google Photos shares the 15 gigabytes of free storage space with other Google services, such as Google Drive and Gmail 5f340bdcbd

Google+ The network was launched on June 28, 2011, in an attempt to challenge other social networks, linking other Google products like Google Drive, Blogger, Google AdSense, and YouTube. Three Google executives oversaw the service, which underwent substantial changes that led to a redesign in November 2015. The service, Google's fourth foray into social networking, experienced strong growth in its initial years, although usage statistics varied, depending on how the service was defined. Mentions Google+ (sometimes written as Google Plus, stylized as G+ or g+) was a social network owned and operated by Google until it ceased operations in 2019. Photos was a suite of features which provided photo backup and editing, removed in 2015 and replaced with a separate product called Google Photos 5f340bdcbd

Google Photos shares the 15 gigabytes of free storage space with other Google services, such as Google Drive and Gmail. Users can upload their photos and videos in either quality setting, original or compressed (photos and videos up to 16 megapixels and 1080p resolution, respectively), that will count towards the free storage tier (compressed items uploaded before June 1, 2021, along with items uploaded via Pixel phones released before that date, are unlimited). Users can expand their storage through paid Google One subscriptions. 5f340bdcbd
