The Abondance originated in the French or Savoyard part of the former Chablais province of the Duchy of Savoy, and until the late nineteenth century it was for that reason known as the Chablaisienne. A herd-book was started in 1891 or 1894, and the name was changed at that time to the present one.

Largely confined to empty stock workings at London Paddington station, their lives were short; for example 1509 lasted barely ten years in BR service...

3c697290b0 Coming from a railway company with a well-developed standardisation policy, the 15xx was an unconventional break. Unlike almost all previous panniers they had outside cylinders, Walschaerts valve gear, and a very short wheelbase of 12 ft 10 in (3.91 m) to go round curves of 3.5 chains (231 ft; 70 m). Above footplate level they were very similar to the 9400 class, and shared the same Standard No. 10 boiler. The major difference was below the (very small) footplate, where they resembled the USATC S100 Class that the GWR and other railways had used during the Second World War. 3c697290b0 The line was a single track, and a passing loop, which appeared to cross the adjacent road on the level, was provided at the station to enable the locomotive to run round the train. At this time there was one platform to the south of the running line and a small building between the platform and the road. A small goods yard was to the south and east of the station. Able to accommodate most types of goods including live stock, it was equipped with a half-ton crane. The initial service was for four trains in each direction. 3c697290b0 == History == 3c697290b0 The video was filmed in 1998, but wasn't released until March 1999. In the music video, will.i.am is in hospital because his left shoulder is badly wounded. A doctor tells him all the doctors are unavailable, so he looks for another doctor. Will sees a man get off his wheelchair and strangle another patient, all the doctors and nurses try to get him off while will.i.am is trying to get past, he knocks over a tray of pills. Kim Hill pushes will.i.am out of the way to get to a patient. While will.i.am is rapping his verse, apl.de.ap is seen pushing a bed with a blue blanket over the body and Taboo is seen in a safety mask and a white scarf on his head. When the chorus starts again, will.i.am is back to where he came from, and the same thing happens again; apl sings the verse this time round. When will.i.am is...

3c697290b0 The station was located on the southern edge of Stake Pool village to the east of the road running south (now Bradshaw Lane), and was sometimes called Stake Pool station by the local press. Although called Pilling station, it was about 1,500 yards (1,400 m) from Pilling village across country, or about 1.5 miles (2.4 km) by road. 3c697290b0 After several takes on January 25 and 27, 1966, in New York, the final version was finally achieved in the early hours of March 10 in Nashville. Released as a single in March 1967, "Leopard-Skin Pill-Box Hat" peaked at number 81 on the American Billboard Hot 100 chart in June 1967. Critics have not rated the song amongst Dylan's best, although the song's humor has been praised. From 1966 to 2013, Dylan played the song live in concert over 500 times. 3c697290b0 == Medical uses == 3c697290b0 Bristol Channel pilot cutters were referred to as "skiffs" by their crews on the English side of the channel, and "yawls" by those working from Welsh ports. Underdog always speaks in rhyming couplets, as in "There's no need to fear, Underdog is here!" His voice was supplied by Wally Cox.
