The project would replace an existing 1850s Italianate building that was damaged in the attacks. The original design was by SOMA Architects principal Michel Abboud, who wrestled for months with the challenge of making the building fit naturally into its lower Manhattan surroundings. He felt it should have a contemporary design, but also look Islamic. His design included a 500-seat auditorium, theater, performing arts center, fitness center, swimming pool, basketball court, childcare area, bookstore, culinary school, art studio, food court, and a memorial to the victims of the September 11 attacks. It also included a prayer space for the Muslim community that would... 8b827cd934 Ground Zeroes was released for PlayStation 3, PlayStation 4, Xbox

The building was constructed to replace the original structure on the site, part of the original World Trade Center. The previous structure, completed in 1987, was destroyed in the September 11 attacks in 2001. Construction of the new 7 World Trade Center began in 2002 and was completed on May 23, 2006. The building is 52 stories tall (plus one underground floor), making it the 64th-tallest in New York. It is built on a smaller footprint than the original; a small park across Greenwich Street occupies space that was part of the original building's footprint. 8b827cd934
