The Texans finished 9–7 for the third season in a row and clinched the AFC South for the second season in a row, winning their fourth overall division title; the Texans finished tied with the Tennessee Titans, but won the tiebreaker based on record against division opponents. The 2016 season marked the first time in franchise history that the Texans swept the Indianapolis Colts. This marks the second time in team history that the Texans made the playoffs in back to back years, and the first since 2011–12. This was also the first time in their franchise history where their defense ranked number one in the league, despite losing their injured star defensive end J. J. Watt for most of the season, only allowing 20.5 points per game and only 301.3 yards per game. 033c5e4476

This first tornado was a harbinger of things to come as the morning went on and the atmosphere began to destabilize, due to the abundance of sunshine that preceded the cold front in the warm sector, which covered the lower Great Lakes region extending southward well past the Ohio River Valley. 033c5e4476 The RAN has used divers on a regular basis since the 1920s, but it was not until World War II that clearance diving operations came to the fore, with RAN divers working alongside Royal Navy divers to remove naval mines from British waters, and from the waters of captured ports on the European mainland such as Hugh Syme, John Mould, George Gosse and Leon Goldsworthy all highly decorated. RAN divers were also used in performing duties including reconnaissance of amphibious landing sites. The skills learned in the European theatre were brought back to Australia, and used in the war against Japan. After the war, RAN divers were used during the clean-up of Australian and Papua New Guinea waters of defensive mines. 033c5e4476 After two weather-related delays, the shuttle successfully launched on Tuesday, July 4, 2006, at 14:37:55 EDT.
