Linda McCartney Foods Linda McCartney Foods sponsored the Linda McCartney cycle team set up by Linda McCartney Foods is a British food brand specialising in vegetarian and vegan food. Available in the UK, as well as Norway, Ireland, Austria, Australia, South Africa and New Zealand, the range includes chilled and frozen meat analogues in the form of burgers, sausages, sausage rolls, meatballs, stir-fry dishes and pastas. 1999 report from BBC Two alleged products contained genetically modified soya

Quorn was launched in 1985 by Marlow Foods, a joint venture between Rank Hovis McDougall (RHM) and Imperial Chemical Industries (ICI). During the era in Japan known as the Shōwa era or post-war, the people of Japan were struggling to recover from the destruction of World War II. Determined to prove to the rest of the world that Japan will not be shunned from the rest of the world, the Japanese government decided to launch an expedition and set up a research base on the mysterious continent that few men dared to have the courage and skills to explore - the frozen continent of Antarctica. An old Japanese war vessel called the Sōya, which had survived the war was repaired and redesigned as the first Icebreaker ship for the Japanese Antarctic Expedition, and fifty-three men were chosen for the journey to the continent. Soy is a key food source, owing to its high protein and oil content. Soybean oil is widely used in cooking, as well as in industry. Traditional unfermented food uses of soybeans include edamame, as well as soy milk, from which tofu and tofu skin are made. Fermented soy foods include soy sauce, fermented bean paste, nattō, and tempeh. Fat-free (defatted) soybean meal is a significant and cheap source of protein for animal feeds and many packaged meals. For example, soybean products, such as textured vegetable protein (TVP), are ingredients in many meat and dairy substitutes. Soy-based foods are traditionally associated with East Asian cuisines, and still constitute a major part of East Asian diets, but processed soy products are increasingly used in Western cuisines.

Ugali Nguni languages in South Africa, mukaka wakakora in Shona, or lacto) Soya chunks Soups and stews Similar dishes are polenta from northern Italy,

Tripe served with sweet soya sauce with chilli and spring onions as a dipping sauce. Obe ata pelu Shaaki—Nigerian stew made with large chunk of beef and goat tripe e3d8eb27b5

== History == e3d8eb27b5 The distinction between coarse fish and game fish, terms that developed in the United Kingdom in the early 19th century, has no taxonomic basis. Before that time, recreational fishing was a sport of the gentry, who angled for salmon and trout and called them "game fish". There was a view that other fish did not make as good eating, and they were disdained as coarse fish. Coarse... e3d8eb27b5 Though all Quorn products are vegetarian, not all are vegan. All Quorn foods contain mycoprotein as an ingredient, which is derived from the *Fusarium venenatum* microfungus. In most Quorn products, the fungus culture is dried and mixed with egg white, which acts as a binder, and then is adjusted in texture and pressed into various forms. The vegan formulation uses potato protein as a binder instead of egg white. e3d8eb27b5

Coarse fishing Freshwater game fish are all salmonids, particularly salmon, trout and char. It refers to the angling for rough fish, which are fish species considered undesirable as food or game fish. Loose feed can be any of the above baits with a particle bait, sometimes in the form of hemp Coarse fishing (Irish: garbhiascaireacht, Welsh: pysgota bras) is a phrase commonly used in Great Britain and Ireland. typically made with fish meal, milk, and soya) and luncheon meat. Generally, coarse fish are freshwater fish that are not salmonids, though there is often disagreement over whether grayling should be classified as a game fish or a coarse fish e3d8eb27b5

Nigerian cuisine, like many West African cuisines, is known for being savoury and spicy. e3d8eb27b5 Fly fishing is the technique usually used for freshwater game fishing, while other angling techniques are usually used for coarse fishing. The sport of coarse fishing and its techniques are particularly popular in the United Kingdom and mainland Europe, as well as in some former British Commonwealth countries and among British expatriates. e3d8eb27b5 == History == e3d8eb27b5

The brand was created in 1991 by musician, photographer and activist Linda McCartney, and has been described as one of the most successful mass-market celebrity brands. It has changed ownership several times, with its past owners including McVitie's and Heinz. Since 2006, it has been owned by Hain Celestial Group. e3d8eb27b5 Quorn is sold as both a cooking ingredient and as a meat substitute used in a range of prepackaged meals. e3d8eb27b5

Soybean Soy is a staple crop, the world's The soybean, soy bean, or soya bean (Glycine max) is a species of legume native to East Asia, widely grown for its edible bean. soybean, soy bean, or soya bean (Glycine max) is a species of legume native to East Asia, widely grown for its edible bean. Soy is a staple crop, the world's most grown legume, and an important animal feed e3d8eb27b5
