The stomach connects to the esophagus above and to the small intestine below. It is intricately related to the pancreas, spleen and liver. The stomach does vary in size but its J shape is constant. The stomach lies in the upper part of the abdomen just below the left rib cage. The storylines of What It's Like Being Alone revolve around the residents of the fictional Gurney Orphanage, a dark, run-down building. The orphanage has been described by a columnist as Victorian, and it may be set in a bog on the Canadian island of Newfoundland. Many stomach diseases are associated with infections.
