They are typically used fresh or dried, and their flavors are often milder and more aromatic than spices. Herbs are commonly added toward the end of cooking to preserve their delicate flavors and are often used in larger quantities compared to spices. They are versatile in both savory and some sweet dishes. Examples of popular herbs include basil, mint, parsley, cilantro, and rosemary, all of which enhance the flavor profile of a dish with their fresh, fragrant qualities. 56f982285a his outstanding ability to take a wisp of fog, a chance phrase overheard in an elevator, a happy child on a cable car, a deb in a tizzy over a social reversal, a family in distress and give each circumstance the magic touch that makes a reader an understanding eyewitness of the day's happenings. 56f982285a The term herbology is misleading in the sense that, while plant elements are by far the most commonly used substances, animal, human, and mineral products are also used, some of which are poisonous. In the Huangdi Neijing they are referred to as 毒藥 (pinyin: dúyào) which means "poison-medicine". Paul U. Unschuld points out that this is similar etymology to the Greek pharmakon and so he uses the term pharmaceutic. Thus, the term medicinal (instead of herb) is usually preferred as a translation for 藥 (pinyin: yào). 56f982285a
