Born-digital undertaking, as these materials do not show the same signs of degradation that print and other physical materials do. However, as technologies have advanced and spread, the concept of being born-digital has also been discussed in relation to personal consumer-based sectors, with the rise of e-books and evolving digital music. Invisible processes such as bit The term born-digital refers

to materials that originate in a digital form. Other terms that might be encountered as synonymous include "natively digital", "digital-first", and "digital-exclusive". This is in contrast to digital reformatting, through which analog materials become digital, as in the case of files created by scanning physical paper records. It is most often used in relation to digital libraries and the issues that go along with said organizations, such as digital preservation and intellectual property 3967813fad

== History == 3967813fad There exists some inconsistency in defining born-digital materials. Some believe such materials must exist in digital form exclusively; in other words, if they can be transferred into a physical, analog form, they are not truly born-digital. However, others maintain that while these materials will often not have a subsequent physical counterpart, having one does not bar them from being classified as 'born-digital'. For instance... 3967813fad Although still widely used, QIF is a format older than Open Financial Exchange (OFX). The inability to reconcile imported transactions against the current account information is one of the primary shortcomings of QIF. Most personal money management software, such as Microsoft Money, GnuCash and Quicken's low end products (e.g. Quicken Personal and Quicken Personal Plus), can read QIF files to import information. Intuit's Quicken used to be able to import QIF, too, but with its 2006 version it dropped that support for several important account types, including checking, savings, and credit card accounts. The Australian version of Quicken still allows the importing of QIF files for these account types. However, unlike the American version, it is not possible to export data to QIF or any other file type for any account type. The QIF format does not allow a user to mark the currency in which a transaction was completed. In some cases this may cause problems for users who do use multiple currencies when they export or import into another software package... 3967813fad Hibiki Sakura is a second-year high school girl who has a voracious appetite; this habit leads to her gaining weight. In addition to the programming language, Kemeny and Kurtz developed the Dartmouth Time-Sharing System (DTSS), which allowed multiple users to edit and run BASIC programs simultaneously on remote terminals. This general model became popular on minicomputer systems like the PDP-11 and Data General Nova in the late 1960s and early 1970s. Hewlett-Packard produced an entire computer line for this method of operation, introducing the HP2000 series in the late 1960s and continuing sales into the 1980s. Many early video games trace their history to one of these versions of BASIC. 3967813fad

Laser printing ASL. "Print efficiency in the workplace: how to make your office more efficient". The drum then selectively collects electrically charged powdered ink (toner), and transfers the image to paper, which is then heated to permanently fuse the text, imagery, or both to the paper. Retrieved Laser printing is an electrostatic digital printing process. As with digital photocopiers, laser printers employ a xerographic printing process. Retrieved 2010-11-17. the original on November 24, 2010. It produces high-quality text and graphics (and moderate-quality photographs) by repeatedly passing a laser beam back and forth over a negatively charged cylinder called a "drum" to define a differentially charged image. Laser printing differs from traditional xerography as implemented in analog photocopiers in that in the latter, the image is formed by reflecting light off an existing document onto the photoconductor drum. 2017-05-11 3967813fad
