Projects of DRDO (with the name meaning 'Strike', in Hindi) program, while an exportable derivative named Pragati ('Progress' in Hindi) was displayed in a South Korean This article consists of projects of the Defence Research and Development Organisation (DRDO) 81f0d4fe85

of India|cartography, metallurgy, logic, mathematics, metrology and mineralogy were among the branches of study pursued by its scholars. During recent times science and technology in the Republic of India has also focused on automobile engineering, information technology, communications as well as research into space and polar technology. 81f0d4fe85 == Names == 81f0d4fe85 LinkedIn

The movement has advanced almost incomprehensibly far since then; today the Wikimedia Foundation employs 280+ staffers running the fifth most visited website in the world. And no one's kept better track of the progress than the Signpost has. The contents of the Signpost archive contain the most extensive record available anywhere or to anyone of the things that have mattered and continue to matter to the community, and by browsing the Signpost archives editors can familiarize themselves with any and all of the things that matter in the community, from VisualEditor to semi-protection to hoax-making to editcountitis. Even things that most have forgotten about: for instance, how many remember that recently-retired vice president of engineering and long-time Wikipedian Erik Möller was working on a "Wikidata" concept all the way back in 2005 (we do)? How many of us have ever heard of nofollow (we have)?

Torsades de pointes Common Torsades de pointes, torsade de pointes or torsades des pointes (TdP; also called torsades) (, French: [tɔʁsad də pwɛ̃t], translated as "twisting of peaks") is a specific type of abnormal heart rhythm that can lead to sudden cardiac death. 17 genes) and as an acquired form caused most often by drugs and/or electrolyte disorders that cause excessive lengthening of the QT interval. It is a polymorphic ventricular tachycardia that exhibits distinct characteristics on the electrocardiogram (ECG). It was described by French physician François Dessertenne in 1966. Prolongation of the QT interval can increase a person's risk of developing this abnormal heart rhythm, occurring in between 1% and 10% of patients who receive QT-prolonging antiarrhythmic drugs

Zinc is an essential trace element for humans, animals, plants and for microorganisms and is necessary for both prenatal and postnatal development. It is the second most abundant trace metal in humans after iron... 81f0d4fe85 The Defence Research and Development Organisation (DRDO) is responsible for the ongoing HAL Tejas programme. The LCA is intended to provide the Indian Air Force with a modern, fly by wire, multi-role fighter, as well as develop the aviation industry in India. The LCA programme has allowed DRDO to progress substantially in the fields of avionics, flight control systems, aircraft propulsion and composite structures, along with aircraft design and development. 81f0d4fe85 Most episodes will revert spontaneously to a normal sinus rhythm. Symptoms and consequences include palpitations, dizziness, lightheadedness (during shorter episodes), fainting (during longer episodes), and sudden cardiac death. 81f0d4fe85 Op-edContent Translation beta is coming to the English Wikipedia 81f0d4fe85 == Aeronautics == 81f0d4fe85 The DRDO is part of the Indian Air Force's upgrade programmes for its Sepecat Jaguar combat aircraft, along with the manufacturer Hindustan Aeronautics Limited. DRDO and HAL have been responsible for the system design and integration of these upgrades, which combine indigenously developed systems along with imported ones. DRDO contributed subsystems... 81f0d4fe85 Facebook 81f0d4fe85 E-mail 81f0d4fe85 For the purpose of this list, the inventions are regarded as technological firsts developed within territory of India, as such does not include foreign technologies which India acquired through contact or any Indian origin living in foreign country doing any breakthroughs in foreign land. It also does not include not a new idea, indigenous alternatives, low-cost alternatives, technologies or discoveries developed elsewhere and later invented separately in India, nor inventions by Indian emigres or Indian diaspora in other places. Changes in minor concepts of design or style and artistic... 81f0d4fe85

Diabetes insipidus Reduction of fluid has little effect on the concentration of the urine. Complications may include dehydration or seizures. The amount of urine produced can be nearly 20 liters per day. the expense of deranging electrolyte levels. The regulation of urine production occurs in the hypothalamus, which produces ADH in the supraoptic and paraventricular Diabetes insipidus (DI) is a condition characterized by large amounts of dilute urine and increased thirst 81f0d4fe85

The DRDO provided key avionics for the Sukhoi Su-30MKI programme under the "Vetrivel" programme. Systems developed by DRDO include radar warning receivers, radar and display computers. DRDO's

radar computers, manufactured by HAL are also being fitted into Malaysian Su-30s. 81f0d4fe85 By Resident Mario 81f0d4fe85 81f0d4fe85 The Signpost has been in continuous weekly publication on the English Wikipedia since its foundation in early 2005 by future (now well-former) Board chairman Michael Snow. And over more than a decade of weekly publication we have accumulated an incredibly lengthy and detailed record about the issues, controversies, successes, and failures of the English Wikipedia community and the movement at large. 81f0d4fe85 The Signpost tagging initiative 81f0d4fe85 Though the technical framework is now almost complete, the bulk of the content work remains to be done. Before we can develop our initiative any further we need input from you, our readers, on what these tags actually are. A lot of things have happened over the decade and we don't pretend to know all of them; for this reason we need your help coming up with as comprehensive a list of tags as possible. It's imperative that, before we begin, we have as complete a list as possible of all of the important things that have happened on Wikipedia—and so we are asking for your help defining just what those things are. 81f0d4fe85 What am I helping build here? 81f0d4fe85 Gestational DI occurs only during pregnancy. 81f0d4fe85

Zinc The most common zinc ore is sphalerite (zinc blende), a zinc sulfide mineral. It is the first element in group 12 (IIB) of the periodic table. Zinc is refined industrially by froth flotation of the ore, roasting, and final extraction using electricity (electrowinning). The largest concentration of economically feasible lodes in descending order are located in China, Peru, and Australia, among others. Zinc also has five stable isotopes; the most abundant of which, Zn-64, comprises nearly half of zinc's total abundance. In some respects, zinc is chemically similar to magnesium: both elements exhibit only one normal oxidation state (+2), and the Zn^{2+} and Mg^{2+} ions are of similar size. Zinc is the 24th most abundant element in Earth's crust, with an average concentration of 70 grams per ton. in 1800. Zinc is a chemical element; it has symbol Zn and atomic number 30. It is a slightly brittle metal at room temperature and has a shiny blue whitish appearance when surface oxidation is removed. Volta's pile consisted of a stack of simplified galvanic cells, each being one plate of copper and one of zinc connected by an electrolyte 81f0d4fe85

Grammatical mood applies to verbs. Is there a category that applies to nouns? And any other (analagous) category that applies to other syntatic categories?68.148.164.166 (talk) 01:25, 26 March

Featured contentOne eye when begun, two when it's done Share this == Signs and symptoms == Dipsogenic DI is a result of excessive fluid intake due to damage to the hypothalamic thirst mechanism. It occurs more often in those with certain psychiatric disorders or on certain medications. There are four types of DI, each with a different set of causes. Diagnosis is often based on urine tests, blood tests and the fluid deprivation test. Despite the name, diabetes insipidus is unrelated to diabetes mellitus and the conditions have a distinct mechanism, though both can result in the production... Central DI (CDI), now known as arginine vasopressin deficiency (AVP-D), is due to a lack of vasopressin (antidiuretic hormone) production. This can be due to injury to the hypothalamus or pituitary gland or due to genetics. == Grammatical mood == 2015-06-24

Wikipedia:Reference desk/all with is "made of electrolytics"; an electrolytic capacitor is called that because it uses an electrolyte between the layers. Electrolytic capacitor technology

Yet for all of its richness the Signpost archives are rarely used. Searching the archives for information on what you want is a pain, and since the results will be returned out of order it is the onus of the person doing the search to figure out what happened in what order. While doing research for a story I am, by way of the effort that I must make in reconstructing sequences of events through the Signpost archives, reminded of why hardly anyone ever does it. Articles are written and read, then archived and never heard from again; yet there is a rich wealth of information that the community could potentially make use of, a decade's worth of publications informing who we are and where we came from that is just too hard to pick apart to be of any use to anyone. The name Chaas or Chaach is derived from Sanskrit word Chacchika (चच्छिका), meaning churned yogurt from which butter has been removed. Also called gu:चूच chhash, hi:चूच chhachh. IPA: [tʃʰa:s, tʃʰaʃ, tʃʰa:tʃʰ]. In Magahi and Bundeli, it is called Mattha. In Rajasthani it is called Khati chaas or khato, in Odia it is called Ghol/Chaash, moru in Tamil and Malayalam, taak in Marathi, majjiga in Telugu, majjige in Kannada, ale (pronounced a-lay) in Tulu and ghol in Bengali. In Indian English, it is often referred to as buttermilk. 81f0d4fe85 We at the Signpost have been hard at work over the past few months building up a systematic way to change that. 81f0d4fe85 Special reportSmall impact of the large Google Translation Project on Telugu Wikipedia 81f0d4fe85 From the editorThe Signpost tagging initiative 81f0d4fe85 Recent researchHow Wikipedia built governance capability; readability of plastic surgery articles 81f0d4fe85
