Pregnancy in art 15th century. Historically, married women were at some stage of pregnancy for much of their life until menopause, but the depiction of this in art is relatively uncommon, and generally restricted to some specific contexts. This probably persists even in contemporary culture; despite several recent artworks depicting heavily pregnant women, one writer was "astonished at the shortage of visual images. A common visual indication is the gesture of the woman placing a protective open hand on her abdomen. of pregnant women in public visual culture". The loose full clothes used in Pregnancy in art covers any artistic work that portrays pregnancy. Medieval thinking held that Elizabeth was about seven months pregnant at the meeting, and Mary about one. In art, as in life, it is often unclear whether an actual state of pregnancy is intended to be shown.
