

Eating Before Bed Is Bad

The tale is about two mice who vandalise a doll's house. After finding the food on the dining room table made of plaster, they smash the dishes, throw the doll clothing out the window, tear the bolster, and carry off a number of articles to their mouse-hole. When the little girl who owns the doll's house discovers the destruction, she positions a policeman doll outside the front door to ward off any future depredation. The two mice atone for their crime spree by putting a crooked sixpence in the doll's stocking on Christmas Eve and sweeping the house every morning with a dust-pan and broom. c8f5e8d32c

Bedsits are often occupied by young single people, students, those unable to purchase their own properties, or those whose occupation is of a transitory nature; the cost is typically lower than for other types of property.
