Acrobatic gymnasts perform in one of five units: pairs (same-gender or mixed) or same-gender groups (three for women, four for men). In each partnership, the gymnasts' different sizes and abilities will be balanced to complement each other in order to carry out the complex moves. Some will mainly carry out supporting and pitching roles and are known as bases. They are then balanced with usually smaller gymnasts who become the 'tops'. In men's and women's groups there are also one or two 'middles', who are like another base who usually will support the top while balancing on the base. 730522ea03
