Most strains of difference feminism did not argue that there was a biological, inherent, ahistorical, or otherwise "essential" link between womanhood and traditionally feminine values, habits of mind (often called "ways of knowing"), or personality traits. These feminists simply sought to recognize that, in the present, women and men are significantly different and to explore the devalued "feminine" characteristics. This variety of difference feminism is also called gender feminism. 5430978c8a , 5430978c8a , 5430978c8a An early version of "What's the Difference" features a verse from Hittman in place of Xzibit's. However, Hittman felt the song was better suited for inclusion on Eminem's album The Marshall Mathers LP (2000) and that a song called "Blaaow" should appear on 2001 instead; he requested that Dr. Dre remove his verse from "What's the Difference" to make clear which song he preferred. "Blaaow" (also featuring fellow Aftermath member Knoc-turn'al) was later released on Hittman's 2005 album Hittmanic Verses under the title "Bloww". 5430978c8a The work is a critique of what Deleuze calls 'representation': a mode of thought where things become intelligible only by being placed under concepts, compared, categorized, and recognized. For example: this object is a tree because it fits the basic conceptual identity of "tree." Instead of treating identity as basic and difference as secondary, Deleuze treats difference as primary and identity as a temporary effect. He develops concepts of difference in itself and repetition for itself, that is, concepts of difference and repetition that are logically and metaphysically prior to any concept of identity. True repetition is the repetition of difference. 5430978c8a 1 5430978c8a } 5430978c8a Although the rules for distinguishing these groups are not absolute, one very good guiding principle is that butterflies have thin antennae and (with one exception) have small balls or clubs at the end of their antennae. Non-difference (Abheda) or the destruction of what exists; and that there is no relation between cause and effect. In Vedanta philosophy this word plays a vital role in explaining the indicatory mark in respect of the unity of the individual self with the Infinite or Brahman. With regard to the non-difference of the cause and the effect Non-difference is the nearest English translation of the Sanskrit word abheda, meaning non-existence of difference 5430978c8a

Many attempts have been made to group the superfamilies of the Lepidoptera into natural groups, most of which fail because one of the two groups is not monophyletic: Microlepidoptera and Macrolepidoptera, Heterocera and Rhopalocera, Jugatae and Frenatae, Monotrysia and Ditrysia. 5430978c8a == History == 5430978c8a == Taxonomy == 5430978c8a

For many sensory modalities, over a wide range of stimulus magnitudes sufficiently far from the upper and lower limits of perception, the 'JND' is a fixed proportion of the reference sensory level, and so the ratio of the JND/reference is roughly constant (that is the JND is a constant proportion/percentage of the reference level). However, some forms of difference feminism – such as Mary Daly's – argue that women and their values are superior to those of men. There is ongoing debate about whether Daly's feminism is essentialist. 5430978c8a The difference operator, commonly denoted 5430978c8a { 5430978c8a Difference and Repetition was Deleuze's principal thesis for his doctoral degree, advised by Maurice de Gandillac. This is the non-identity non-difference theory of Audolomi. However, Kasakrtsna (Brahma Sutra I.iv.22) believed that the very supreme self exists as the individual soul without undergoing any change which view-point is supported by Badarayana when he reiterates that the individual is only an apparent part of the partless Brahman; the difference is imaginary.
