Fix a Heart chorus, "Baby, I just ran out of band-aids/ I don't even know where to start/ 'Cause you can bandage the damage/ You never really can fix a heart". Jenny "Fix a Heart" is a song by American singer Demi Lovato, from her third studio album, Unbroken (2011). It is a pop piano ballad that Lovato and some critics described as a break-up song, while other authors noted references in the lyrics about the singer's issues with self-harm. Priscilla Renea co-wrote the track with producer Emanuel Kiriakou 12c874e1a7

Match fixing themselves are not inherently match fixing, controversies such as Crashgate demonstrate how the pursuit of competitive advantage can motivate deliberate manipulation In organized sports, match fixing (also known as game fixing, race fixing, throwing, rigging, hippodroming, or more generally sports fixing) is the act of playing or officiating a contest with the intention of achieving a predetermined result, violating the rules of the game and often the law. A player might also play poorly to rig a handicap system. There are many reasons why match fixing might take place, including receiving bribes from bookmakers or sports bettors, and blackmail. Competitors may also

intentionally perform poorly to gain a future advantage, such as a better draft pick or to face an easier opponent in a later round of competition 12c874e1a7

After introduction in the 20th century of coordinate-free definitions of rings and algebras, it was proved that the algebra of split-quaternions is isomorphic to the ring of the 2×2 real matrices. So the study of split-quaternions can be reduced to the study of real matrices, and this may explain why there are few mentions of split-quaternions in the mathematical literature of the 20th and 21st centuries. The split-quaternions are also equivalent to the Clifford algebras $Cl_{2,0}(\mathbb{R}) \cong Cl_{1,1}(\mathbb{R})$ over the real numbers, and so the study of split-quaternions is also subsumed in the study of Clifford algebra and geometric algebra in the mathematics and physics literature. 12c874e1a7 The first iPad was released in 2010 and ran iPhone OS 3.2, which added support for the larger device to the operating system, previously only used on the iPhone and iPod Touch. These contacts and transfers can sometimes be discovered, and lead to prosecution by the law or the sports league(s).
