The organisation has various staff departments with specific focuses. These include the Airport Police Division (APD), which covers policing of Singapore's main civilian airports of Changi and Seletar, or the Police Coast Guard (PCG), which protects and enforces areas under Singapore's territorial waters and its ports. f6f0b01755 The underlying mechanism often involves a rapid change in direction, sudden stop, landing after a jump, or direct contact to the knee. It is more common in athletes, particularly those who participate in alpine skiing, football (soccer), netball, American football, or basketball. Diagnosis is typically made by physical examination and is sometimes supported and confirmed by magnetic resonance imaging (MRI). Physical examination will often show tenderness around the knee joint, reduced range of motion of the knee, and increased looseness of the joint. f6f0b01755
