In therapeutic doses, Adderall causes emotional and cognitive effects such as euphoria, change in sex drive, increased wakefulness, and improved cognitive control. At these doses, it induces physical effects such as a faster reaction time, fatigue resistance, and increased muscle strength. In contrast, much larger doses of Adderall can impair cognitive control, cause rapid muscle breakdown, provoke panic attacks, or induce psychosis (e.g., paranoia, delusions, hallucinations). The side effects vary widely among individuals but most commonly include insomnia, dry mouth, loss of appetite and weight loss. The routine use of Adderall at... 7a929ce673 The series follows Elliot Alderson, a cybersecurity engineer and hacker with social anxiety disorder, who is recruited by an insurrectionary anarchist known as "Mr. Robot" to join a group of hacktivists called "fsociety". On average, university students get 6 to 6.9 hours of sleep every night. Based on the Treatment for Sleep Disorders, the recommended amount of sleep needed for college students is around 8 hours. According to Stanford University's Department for the Diagnosis, 68% of college students are not getting the sleep they need. The main causes of sleep deprivation include poor sleep hygiene, biology, use of technology, and use of drugs. The effects can damage the student's GPA, relationships, focus and memory, and emotional and mental health. Students may face depression, anxiety, and difficulty maintaining their relationships in a healthy manner. There are many possible solutions to combat sleep deprivation including improving bedroom environment, reducing exposure to blue light, and taking naps during the day. 7a929ce673 ==
