

How To Search In Excel

Google Search It allows users to search or ask for information by entering keywords or phrases on a website page or in an installed application program. It is the most-visited website in the world; and as of 2025, it has a 90% share of the global search engine market. It uses algorithms to analyze and rank websites based on their relevance to the query and uses generative AI to respond to queries with non-search responses. methods to rank search results, used by many search engines that were once more popular than Google, would check how often the search terms occurred in a page Google Search (also known simply as Google) is a search engine operated by Google
