The Sac River has created a cut bank, some 5.2 meters high, revealing a rare site similar to the Rodgers Formation of the neighboring Pomme de Terre valley (Lopinot et al. 1998:39-40). Haynes (1976:58-59) describes the deposits in the area of Rodgers Cave as flood plain deposits which have accumulated slowly through annual flooding. Periodically, the river would downcut deeply enough to prevent further flooding, only to change its course later and restart the process. This leaves a series of easily identified layers, separated by periods of no deposits. Big Eddy was formed in a similar way. For some 14,000 years, the Sac River has gently flooded, covering over this site with thick, well stratified, alluvial silt (Bush 2006). 4bfcf5d90d

Deepwater Horizon oil spill It is considered the largest marine oil spill in the history of the petroleum industry and estimated to be 8 to 31 percent The Deepwater Horizon oil spill was an environmental disaster beginning 20 April 2010 off the coast of the United States in the Gulf of Mexico, on the BP-operated Macondo Prospect. After several failed efforts to contain the flow, the well was declared sealed on 19 September 2010. Reports in early 2012 indicated that the well site was still leaking. 9 million barrels (210,000,000 US gal; 780,000 m³). It is considered the largest marine oil spill in the history of the petroleum industry and estimated to be 8 to 31 percent larger in volume than the previous largest, the Ixtoc I oil spill, also in the Gulf of Mexico. The Deepwater Horizon oil spill is regarded as one of the largest environmental disasters in world history. the BP-operated Macondo Prospect. Caused in the aftermath of a blowout and explosion on the Deepwater Horizon oil platform, the United States federal government estimated the total discharge at 4 4bfcf5d90d

The source of ignition was probably a running vehicle engine. The release of liquid followed the automatic opening of a set of relief valves on a raffinate splitter column caused by overfilling. 4bfcf5d90d

DNA supercoil A given strand may be "positively supercoiled" or "negatively supercoiled" (more or less tightly wound). The amount of supercoiling in a given strand is described by a mathematical formula that compares it to a reference state known as "relaxed B-form" DNA. 6. The amount of a strand's supercoiling affects a number of biological processes, such as compacting DNA and regulating access to the genetic code (which strongly affects DNA metabolism and possibly gene expression). Certain enzymes, such as topoisomerases, change the amount of DNA supercoiling to facilitate functions such as DNA replication and transcription. the relaxed bp/turn which, depending on reference is 10. $Lk_o = bp / 10.4$; 10.5; $10.4 \{\displaystyle Lk_o = bp / 10.4\}$ Lk is the number of crosses a DNA supercoiling refers to the amount of twist in a particular DNA strand, which determines the amount of strain on it 4bfcf5d90d

Terry Hazen of the Department of Energy's Lawrence Berkeley National Laboratory said the process could take months or years. But after six weeks of research, he said that microbes could work quickly in 84 °F (29 °C) water as opposed to colder-temperature... 4bfcf5d90d The disaster, caused by a blowout on the BP-operated Macondo Prospect, resulted in the largest marine oil spill in history, with significant environmental, economic, and legal consequences. Investigations were launched by various U.S. government agencies, independent commissions, and BP itself to determine the causes of the explosion, assess regulatory failures, and recommend measures to prevent similar incidents in the future. 4bfcf5d90d BP's origins date back to the founding of the Anglo-Persian Oil Company in 1909, established as a subsidiary of the Burmah Oil Company to exploit oil discoveries in Iran. In 1935, it became the Anglo-Iranian Oil Company and in 1954, adopted the name British Petroleum. 4bfcf5d90d These investigations uncovered a series of safety lapses, regulatory oversights, and corporate decisions... 4bfcf5d90d The game is now only available in Asia and only printed in Japanese. 4bfcf5d90d Most recently the tournament was hosted by University of Pennsylvania in November 2025, representing the championship for the 2025-2026 academic year. Deepwater Horizon explosion average for six years running, according to MMS statistics that measure the number of citations per inspection. The same blowout that caused the explosion also caused an oil well fire and a massive offshore oil spill in the Gulf of Mexico, considered the largest accidental marine oil spill of all time, and the largest environmental disaster in United States history. The explosion and subsequent fire resulted in the sinking of the Deepwater Horizon and the deaths of 11 workers; 17 others were injured. BP has been a finalist for a national safety On April 20, 2010, an explosion and fire occurred on the Deepwater Horizon semi-submersible mobile offshore drilling unit, which was owned and operated by Transocean and drilling for BP in the Macondo Prospect oil field about 40 miles (64 km) southeast off the Louisiana coast 4bfcf5d90d

US Universities Debating Championship The host is selected by the member schools of the US Universities Debate Association. The event is held for college and university students attending school in the United States, and is hosted by a different university each year. The event determines the National Champions for the year. Adding or subtracting twists, as some enzymes do, imposes strain. If a DNA segment under twist strain is closed into a circle by joining its two ends, and then allowed to move freely, it takes on different shape, such as a figure-eight. This shape is referred to as a supercoil. (The noun form "supercoil" is... 4bfcf5d90d BP acquired majority control of Standard Oil of Ohio in 1978. Formerly majority state-owned, the British government privatised the company in stages between 1979 and 1987. BP merged with Amoco in 1998, becoming BP Amoco p.l.c., and acquired ARCO, Burmah Castrol and Aral AG shortly thereafter. The company's name was shortened to BP p.l.c. in 2001. 4bfcf5d90d
