

How Much Do Doctors Make A Year

The companion character often furthers the story by asking questions and getting into trouble; also by helping, rescuing, or challenging the Doctor. This designation is applied to a character by the show's producers and appears in the BBC's promotional material and off-screen fictional terminology. The Doctor also refers to the show's other leads as their "friends" or "assistants"; the British press have also used the latter term.

The story follows the fortunes of Simon Sparrow starting as a new medical student at the fictional St Swithin's Hospital in London. His five years of student life, involving drinking, dating women, and falling foul of the rigid hospital authorities, provide many humorous incidents. In the serial, the solar engineer Omega (Stephen Thorne), the creator of the experiments that allowed the Time Lords to travel in time, seeks revenge on the Time Lords after he was left for dead in a universe made of antimatter. The Time Lords recruit the time travellers the First Doctor (William Hartnell), the Second Doctor (Patrick Troughton), and the Third Doctor (Jon Pertwee) for help when Omega drains power throughout the universe, threatening all of existence. It made Dirk Bogarde one of the biggest British stars of the 1950s. James Robertson Justice appeared as the irascible chief surgeon Sir Lancelot Spratt, a role he would repeat in many of the sequels.

Companion (Doctor Who) in the Sixth Doctor-era story The Two Doctors, again as the Second Doctor's companion. A companion is generally the series' co-lead character alongside the Doctor for the duration of their tenure, and in most Doctor Who stories acts as an audience surrogate by providing the lens through which the viewer is introduced to the story, and often, the series itself. Also makes a cameo appearance in "The Five Doctors" First appears In the long-running BBC television science fiction programme Doctor Who and related works, the term "companion" refers to a character who travels with, or shares adventures with, the Doctor

== Character biography == One notable difference between DO and MD training is that DOs spend an additional 300–500 hours to study pseudoscientific hands-on manipulation of the human musculoskeletal system (osteopathic manipulative technique) alongside conventional evidence-based medicine and surgery like their MD peers. However, most DOs do not practice this manipulation. Upon completing medical school, a DO graduate can enter an internship or residency training program, which may be followed by fellowship training. DO graduates attend the same graduate medical education programs as their MD counterparts.

The Doctor is an extraterrestrial being from a humanoid species known as Time Lords from the planet Gallifrey. The Doctor travels through space and time using a time travelling spaceship called the TARDIS and frequently travels with companions. When a Time Lord is fatally injured or weakened by old age, their cells regenerate into a new body, while they retain their memories, their personality changes. The different portrayals of the Doctor function as distinct stages within a single, continuous narrative. Capaldi's portrayal of the Doctor is initially a spiky, brusque, contemplative, and pragmatic character who conceals his emotions in the course of making tough and sometimes ruthless decisions. Over time, he becomes kinder, compassionate, and more openly showcases his selflessness. Preceded in regeneration...
