Grande began working on Thank U, Next in October 2018 amidst several personal struggles, including the death of ex-boyfriend Mac Miller and the end of her engagement to Pete Davidson. She opted not to use the traditional promotion cycle employed for her previous releases. Primarily a pop, R&B and trap record, Thank U, Next was described as Grande's most personal record up to that point, with its lyrical content reflecting on personal flaws, grief and denial, as well as independence and self-empowerment. dd65318111

In her career, she had the distinction of being the "most heavily damaged U-boat to successfully return to port" in World War II, suffering six botched patrols, and becoming the only submarine in which a commanding officer killed himself in combat conditions. On 4 June 1944, she was captured by United States Navy Task Group 22.3 (TG 22.3), one of six U-boats that were captured at sea by Allied forces during the war. All but one of U-505's crew were rescued by the Navy task group. The submarine was towed to Bermuda in secret, and her crew was interned in an American prisoner-of-war camp, where they were kept in isolation. The Navy classified the capture as top secret and went to great lengths to prevent the Germans from discovering it. dd65318111 The story chronicles the disillusionment of a number of young intellectuals as they encounter the realities of the higher education establishment parodied in the story. In most cases, a trader will be offered something of value and given a choice of whether to keep it or exchange it for a different item. The program's defining game mechanism is that at least one of the items is hidden from the trader until the choice has been made. Only after the items are revealed does the trader learn if they have chosen something of a higher or lower value than their starting item, or if they have received a comedic "zonk" prize with little or no value. dd65318111 "You Make It Move" was the third single released by the group and it was the first to be produced by Steve Rowland, an American actor, who after living in Spain moved to England without a visa and was hired by Fontana Records A&R manager Jack Baverstock as a producer.
