A significant feature of German vehicle registration plates is the area code, which can be used to tell the district of registration. It has developed into a widespread habit in Germany, even a children's game when travelling, to guess "where that vehicle is from".

Vehicle registration plates of Germany German registration plates are alphanumeric plates in a standardised format, issued officially by the district authorities. They have existed in the country since 1906, with the current system in use since 1956. The rural districts of Heidelberg (HD), Mannheim (MA) and part of Sinsheim (SNH) merged into Rhein-Neckar-Kreis (HD); the districts of Alsfeld (ALS) and Vehicle registration plates (German: Kraftfahrzeug-Kennzeichen or, more colloquially, Nummernschilder) are mandatory alphanumeric plates used to display the registration mark of a vehicle registered in Germany

Pound's contribution to poetry began in the early 20th century with his role in developing Imagism, a movement stressing precision and economy of language. Working in London as foreign editor of several American literary magazines, he helped to discover and shape the work of contemporaries such as H.D., Robert Frost, T. S. Eliot, Ernest Hemingway, and James Joyce. He was responsible for the 1914 serialization of Joyce's *A Portrait of the Artist as a Young Man*, the 1915 publication of Eliot's "The Love Song of J. Alfred Prufrock", and the serialization from 1918 of Joyce's *Ulysses*. Hemingway wrote in 1932 that, for poets born in the late 19th or early 20th century, not to be influenced by Pound would be "like passing through a great blizzard and not feeling its cold". The Royal Hospital School was established by a royal charter in 1712. It was originally located at Greenwich Hospital, but then moved in 1933 to East Anglia.

Mental abilities generally decline into dementia, depression, apathy, and impulsivity at times. The specific symptoms vary somewhat among cases.
