As such, they were avoided in scripted material and bleep censored in the rare cases in which they were used. Broadcast standards differ in different parts of the world, then and now, although most of the words on Carlin's original list remain taboo on American broadcast television. Nonetheless, a radio broadcast featuring these words led to the U.S. Supreme Court's 5-4 decision in 1978 in FCC v. Pacifica Foundation that the Federal Communication Commission's declaratory ruling upholding a 1973 complaint about Carlin's routine being broadcast at 2 p.m. violated neither the First nor the Fifth Amendment to the U.S. Constitution, thus helping to define the extent to which the U.S. federal government could regulate speech on broadcast... 996463732c

The strongest interpretation of the linguistic relativity hypothesis posits that a language's vocabulary (among other features) shapes or limits its speakers' view of the world. This interpretation is widely criticized by linguists, though a 2010 study

supports the core notion that the Yupik and Inuit languages have many more root words for frozen variants of water than the English language. The original claim is loosely based in the work of anthropologist Franz Boas and was particularly promoted by his contemporary, Benjamin Lee Whorf. The idea is commonly tied to larger discussions on the connections between language and thought. 996463732c
