Occupational therapists work with people

who experience illness, injury, disability, or age-related changes that limit their ability to function independently. They assess a person's needs, set goals, and use everyday activities as therapeutic tools. Therapists may also modify tasks, recommend adaptive equipment, or adjust the physical or social environment to support participation. 924a0dddbf

Occupational therapy These occupations include self-care tasks, work, school, social participation, and leisure activities. well-being by creating structure and balance between work, rest and leisure. Slagle was a leader in the development of occupational therapy as a profession Occupational therapy (OT), also known as ergotherapy in Europe, is a healthcare profession that helps people take part in the everyday activities, or occupations, that are important for daily life 924a0dddbf
