

Aching On Left Side Of Abdomen

Radiating pain is slightly different from referred pain; for example, the pain related to a myocardial infarction could either be referred or radiating pain from the chest. Referred pain is when the pain is located away from or adjacent to the organ involved; for instance, when a person has pain only in their jaw or left arm, but not in the chest. Radiating pain would have an origin, where the patient can perceive pain, but the pain also spreads ("radiates") out from this origin point to cause... 901e6e095a

Referred pain The International Association for the Study of Pain has not officially defined the term; hence, several authors have defined it differently. where pain is often felt in the left side of the neck, left shoulder, and back rather than in the thorax (chest), the site of the injury. Referred pain has been described since the late 1880s. The International Referred pain, also called reflective pain, is pain perceived at a location other than the site of the painful stimulus. An example is the case of angina pectoris brought on by a myocardial infarction (heart attack), where pain is often felt in the left side of the neck, left shoulder, and back rather than in the thorax (chest), the site of the injury. Despite an increasing amount of literature on the subject, the biological mechanism of referred pain is unknown, although there are several hypotheses 901e6e095a

The wrybill is the only species of bird with a beak that is bent sideways (always to the right). 901e6e095a Many owl species, such as the barn owl, have asymmetrically positioned ears that enhance sound positioning. 901e6e095a Treatment depends on the underlying cause. Paracetamol (acetaminophen) and ibuprofen may be used to decrease pain. Incentive spirometry may be... 901e6e095a

Aching On Left Side Of Abdomen

Chest pain Pain due to insufficient blood flow to the heart is also called angina pectoris. Those with diabetes or the elderly may have less clear symptoms. It can be divided into heart-related Chest pain is pain or discomfort in the chest, typically the front of the chest. Associated symptoms may include pain in the shoulder, arm, upper abdomen, or jaw, along with nausea, sweating, or shortness of breath. It can be divided into heart-related and non-heart-related pain. may include pain in the shoulder, arm, upper abdomen, or jaw, along with nausea, sweating, or shortness of breath. It may be described as sharp, dull, pressure, heaviness or squeezing 901e6e095a

of one or both ureters from dislodged kidney stones. The most frequent site of obstruction is at the vesico-ureteric junction (VUJ), the narrowest point of the upper urinary tract. Acute (sudden onset) obstruction of a ureter can result in urinary stasis – the disruption or cessation of urine flow into the bladder. This, in turn, can cause distention of the ureter, known as a hydroureter. The obstruction and distention of the ureter(s) results in reflexive peristaltic smooth muscle spasms or contractions, which then cause very intense and diffuse (widespread) visceral pain affecting the organs of the pelvis, abdomen and even the thoracic area. This intense, diffuse pain is transmitted via the ureteric plexus, a branching network of intersecting nerves that cover and innervate the ureters.

901e6e095a == Birds == 901e6e095a Renal colic typically begins in the flank and often radiates to below the ribs or the groin. It typically comes in waves due to ureteric peristalsis, but... 901e6e095a The first two nerves supply fibers to the upper limb and thorax; the next four distribute to the walls of the thorax; the lower five supply the walls of the thorax and abdomen. The 7th intercostal nerve ends at the xiphoid process of the sternum. The 10th intercostal nerve terminates at the navel. The 12th (subcostal) thoracic is distributed to the walls of the abdomen and groin. Each of these fibers contains around 1300 axons. 901e6e095a A scrotal mass is a lump or bulge that can be felt in the scrotum. The scrotum is the sac that contains the testicles. A scrotal mass can be noncancerous (benign) or cancerous (malignant). Benign scrotal masses will include hematocele which is a blood collection in the scrotum. 901e6e095a

Aching On Left Side Of Abdomen

Hematocoele The term most commonly refers to the collection of blood in the tunica vaginalis around the testes, known as a scrotal hematocoele. Hematocoeles are rare, making them harder to diagnose and treat. **Unusual lump** Sudden pain Dull aching pain or feeling heavy in the scrotum Pain radiating throughout the groin, abdomen, or lower back Tender, swollen A hematocoele is a collections of blood in a body cavity or potential space. They are very common especially as slowly growing masses in the scrotum usually in men older than 50 years. Hematocoeles can also occur in the abdominal cavity and other body cavities 901e6e095a

Causes of cancer pain shooting and bursting, or tight and aching), and pain emerging after three months (described as deep, sharp, aching, intense, and continuous, made worse Cancer pain can be caused by pressure on, or chemical stimulation of, specialised pain-signalling nerve endings called nociceptors (nociceptive pain), or by damage or illness affecting nerve fibers themselves (neuropathic pain) 901e6e095a

Intercostal nerves The 7th intercostal nerve ends at the xiphoid process of the sternum The intercostal nerves are part of the somatic nervous system, and arise from the anterior rami of the thoracic spinal nerves from T1 to T11. The intercostal nerves are distributed chiefly to the thoracic pleura and abdominal peritoneum, and differ from the anterior rami of the other spinal nerves in that each pursues an independent course without plexus formation. the walls of the thorax; the lower five supply the walls of the thorax and abdomen 901e6e095a

== Infection == 901e6e095a A scrotal hematocoele is also called a hemoscrotum (or haemoscrotum in British English). Scrotal masses are abnormalities in the bag of skin hanging behind the penis (scrotum). The scrotum contains the testicles and related structures that produce, store and transport sperm and male sex hormones. 901e6e095a The crossbill has an unusual beak in which the upper and lower tips cross each other. 901e6e095a Pleurisy can be caused by a variety of

Aching On Left Side Of Abdomen

conditions, including viral or bacterial infections, autoimmune disorders, and pulmonary embolism. The most common cause is a viral infection. Other causes include bacterial infection, pneumonia, pulmonary embolism, autoimmune disorders, lung cancer, following heart surgery, pancreatitis and asbestosis. Occasionally the cause remains unknown. The underlying mechanism involves the rubbing together of the pleurae instead of smooth gliding. Other conditions that can produce similar symptoms include pericarditis, heart attack, cholecystitis, pulmonary embolism, and pneumothorax. Diagnostic testing may include a chest X-ray, electrocardiogram (ECG), and blood tests. 901e6e095a Unlike the nerves from the autonomic nervous system that innervate the visceral pleura of the thoracic cavity, the intercostal nerves arise from the somatic nervous system. This enables them to control the contraction of muscles, as well as provide specific sensory information regarding the skin and parietal pleura. This explains why damage to the internal wall of the thoracic cavity can be felt as... 901e6e095a

Varicocele heart. In males, this plexus of veins drains blood from the testicles back to the heart. Many varicoceles A varicocele is an abnormal enlargement of the pampiniform venous plexus in the scrotum. The vessels originate in the abdomen and course down through the inguinal canal as part of the spermatic cord on their way to the testis. The vessels originate in the abdomen and course down through the inguinal canal as part of the spermatic cord on their way to the testis 901e6e095a

Hemoscrotum can follow trauma (such as a straddle injury) or can be a complication of surgery. It is often accompanied by testicular pain. It has been reported in patients... 901e6e095a

Sacroiliac joint In humans, the sacrum supports the spine and is supported in turn by an ilium on each side. bones of the pelvis, which are connected by strong ligaments. It is a synovial plane joint with irregular elevations and depressions that produce interlocking of the two bones. In humans, the sacrum supports the spine and is supported in turn by an ilium on each side. The human body has two sacroiliac joints, one on

Aching On Left Side Of Abdomen

the left and one on the right, that often match each other but are highly variable from person to person. The joint is strong, supporting the entire weight of the upper body. The The sacroiliac joint or SI joint (SIJ) is the joint between the sacrum and the ilium bones of the pelvis, which are connected by strong ligaments 901e6e095a

Serious and relatively common causes include acute coronary syndrome such as a heart attack (31%), pulmonary embolism (2%), pneumothorax, pericarditis (4%), aortic dissection (1%) and esophageal rupture. Other common causes include gastroesophageal reflux disease (30%), muscle or skeletal pain (28%), pneumonia (2%), shingles (0.5%), pleuritis, traumatic and anxiety disorders. Determining the cause of chest pain is based on a person's medical history, a physical exam and other medical tests. About 3% of heart attacks, however, are initially missed. 901e6e095a Physical symptoms may...

901e6e095a Many varicoceles are asymptomatic, but some cause a dull ache or a feeling of heaviness in the scrotum. Varicoceles are the most common correctable cause of male infertility, found in approximately 35–44% of men with primary infertility. They are also increasingly recognized as a cause of reduced testicular endocrine function, including lower testosterone levels (hypogonadism). Varicoceles occur in around 15% of all men. 901e6e095a

Renal colic There is typically no antalgic position for the patient (lying down on the non-aching side and applying a hot bottle or towel to the area affected may help) Renal colic (literally, kidney pain), also known as ureteric colic (literally, pain in the ureters), is characterized by 901e6e095a

severe abdominal pain that is spasmodic in nature. This pain is primarily caused by an obstruction 901e6e095a Varicoceles are often asymptomatic and may be discovered incidentally to a physical examination or during an evaluation for male infertility. When palpable, the enlargement of veins above the testicle is most commonly left-sided (80–90% of cases). Right-sided and bilateral varicoceles also occur; an isolated right-sided varicocele is rare and may prompt investigation for an abdominal mass compressing the vena cava. 901e6e095a ==

List of animals featuring external asymmetry If a male fiddler loses its large claw, it grows another on the opposite side after molting. opening of the shell when it retracts inside. In particular, these animals do not exhibit bilateral symmetry, which permits streamlining and is common in animals. A soft abdomen is This is a list of animals that markedly feature external asymmetry in some form. They are exceptions to the general pattern of symmetry in biology 901e6e095a

Management of chest pain is based on the underlying cause. Initial treatment often includes the medications aspirin and nitroglycerin. The response to... 901e6e095a Infection of a tumor or its surrounding tissue can cause rapidly escalating pain, but is sometimes overlooked as a possible cause. One study found that infection was the cause of pain in four percent of nearly 300 cancer patients referred for pain relief. Another report described seven patients, whose previously well-controlled pain escalated significantly over several days. Antibiotic treatment produced pain relief in all patients within three days. 901e6e095a

Pleurisy Other symptoms may include shortness of breath, cough, fever, and weight loss, depending on the underlying cause. This can result in a sharp chest pain while breathing. Other symptoms may include shortness of breath, cough, fever, and weight loss, depending on the underlying cause. Occasionally the pain may be a constant dull ache. pain may be a constant dull ache. Pleurisy Pleurisy, also known as pleuritis, is inflammation of the membranes that surround the lungs and line the chest cavity (pleurae) 901e6e095a
