It is often required of human resources departments to show the organizational value of money and time spent on human resources management training and activities. The value of reporting and analysis of HR performance in various areas aims to improve the organization's function and internal temperature. HR's challenge is to provide business leaders with actionable information that helps them make decisions about investments, marketing strategies, and new products. HR metrics are a vital way to quantify the cost and impact of employee programs and HR processes and measure the success (or failure) of HR initiatives. They enable a company to track year-to-year trends and changes in these critical variables. It is how organizations measure the value of the time and money spent on HR activities in their organization. 345a413414 A 2014 publication hypothesized the star to be a contact binary, sharing a common envelope of material with a smaller yellow supergiant and secondary star, the two orbiting each other every $1,304 \pm 6$ d. E-HRM is in essence the devolution of HR functions to management and employees. They access these functions typically via intranet or other web-technology channels. The empowerment of managers and employees to perform certain chosen HR functions relieves the HR

department of these tasks, allowing HR staff to focus less on the operational and more on the strategic elements of HR, and allowing organizations to lower HR department staffing levels as the administrative burden is lightened. It is anticipated that, as E-HRM develops and becomes more entrenched in business culture, these changes will become more apparent... 345a413414

Charing Cross, Euston and Hampstead Railway and Hampstead Railway (CCE&HR), also known as the Hampstead Tube, was a railway company established in 1891 that constructed a deep-level underground "tube" railway in London. In 1902 it became a subsidiary of the Underground Electric Railways Company of London (UERL), controlled by American financier Charles Yerkes. The UERL quickly raised the funds, mainly from foreign investors. Plans for tunnels under Hampstead Heath were authorised, despite opposition by many local residents who believed they would damage the ecology of the Heath. Construction of the CCE&HR was delayed for more than a decade while funding was sought. Various routes were planned, but a number of these were rejected by Parliament
