

Journal Of Environmental Chemical Engineering

== Abstracting and indexing ==
Chemical engineers typically hold a degree in Chemical Engineering or Process Engineering. Practicing engineers may have professional certification and be accredited members of...
Subject coverage includes engineering, management, manufacturing plants, equipment, production, and processing pertaining to various disciplines. The fields of interest are bio-process engineering, chemical engineering, process engineering, environmental protection (including safety), fermentation, enzymology, bio-transformation, information technology, technology and testing of materials (including corrosion), mathematical methods (including modeling), measurement (including control of processes), utilities (including services). Also covered are production processes and process development. CAS registry numbers are also part of this database.
The mechanical, civil, electrical, and mining engineers in the United States each had already established a national society, so Meade's editorial was...

Environmental engineering
Environmental engineering is a sub-discipline of civil engineering and chemical engineering. Environmental engineering is a sub-discipline of civil engineering and chemical engineering
Environmental engineering is a professional engineering discipline related to environmental science. It encompasses broad scientific topics like chemistry, biology, ecology, geology, hydraulics, hydrology, microbiology, and mathematics to create solutions that will protect and also improve the health of living organisms and improve the quality of the environment. In the realm of civil engineering, environmental engineering is focused mainly on sanitary engineering. health of living organisms and improve the quality of the environment

Chemical Engineering and Biotechnology Abstracts
This is a bibliographic database that covers multiple disciplines. The fields of interest are bio-process engineering, chemical engineering, process engineering, environmental protection (including safety), fermentation
Chemical Engineering and Biotechnology Abstracts (CEABA-VTB) is an abstracting and indexing service that is published by DECHEMA, BASF, and Bayer Technology Services, all based in Germany

Chemical Engineering Science
It is published by Elsevier and was established in 1951. Chemical Engineering Science is a peer-reviewed scientific journal covering all aspects of chemical engineering. While the journal aims to publish "outstanding research that has as its foundations the Science of Chemical Engineering", it has focuses on the themes of catalysis, green and sustainable science, and environmental and novel materials. It is published by Elsevier and was established
Chemical Engineering Science is a peer-reviewed scientific journal covering all aspects of chemical engineering

American Institute of Chemical Engineers
AIChE was established in 1908 to distinguish chemical engineers as professionals independent of chemists and mechanical engineers. primary goal of the IFS is to promote the societal, economic, and environmental benefits of sustainable and green engineering.
Chemical Engineering Progress: The American Institute of Chemical Engineers (AIChE) is a professional organization for chemical engineers

The journal publishes full-length research papers, short communications, review articles, and letters to the editors. It offers the choice to publish under both the open access and subscription modes, and follows a single anonymized review process.
Environmental engineering applies scientific and engineering principles to improve and maintain the environment to protect human health, protect nature's beneficial ecosystems, and improve environmental-related enhancement of the quality of human life.
In 1905, The Chemical Engineer rounded out its first year of publication with an editorial by its founder and prominent engineer, Richard K. Meade, that propounded the question: "Why not the American Society of Chemical Engineers?" He went on to say: "The profession is now a recognized one and there are probably at least five hundred chemical engineers in this country".

A related journal, Chemical Engineering Science: X, was discontinued in 2023.
By 2024, AIChE had over 60,000 members from over 110 countries (sources vary). There are over 350 active student chapters at universities worldwide. Student chapters aim to provide networking opportunities in academia and industry as well as increase student involvement locally and nationally.

This section consists of excerpts from a historical pamphlet written for the Silver Anniversary of the AICHE in 1932.

Journal of Chemical Technology & Biotechnology In 1950 it changed its title to Journal of Applied Chemistry and volume numbering restarted at 1. It was established in 1882 as the Journal of the Society of Chemical Industry by the Society of Chemical Industry (SCI). The journal is published by John Wiley & Sons on behalf of SCI. Previews CAB Abstracts Chemical Abstracts Service Current Contents/Agriculture, Biology & Environmental Sciences Current Contents/Engineering, Computing & Technology The Journal of Chemical Technology & Biotechnology is a monthly peer-reviewed scientific journal. In 1971 the journal changed its title to Journal of Applied Chemistry and Biotechnology and in 1983 it obtained the current title. It covers chemical and biological technology relevant for economically and environmentally sustainable industrial processes ae5055048c

The journal is abstracted and indexed in: ae5055048c Environmental engineers devise solutions for wastewater management, water and air pollution control, recycling, waste disposal, and public health. They design municipal water supply and industrial wastewater treatment systems, and design plans to prevent waterborne diseases and improve sanitation in urban, rural and recreational areas. They evaluate hazardous-waste management systems... ae5055048c

Journal of Environmental Management It is currently published by Elsevier and the editors-in-chief are Raf Dewil (KU Leuven), Jason Evans (Stetson University), and Lixiao Zhang (Beijing Normal University). The Journal of Environmental Management is a semi-monthly peer-reviewed scientific journal covering research on environmental science and quality that The Journal of Environmental Management is a semi-monthly peer-reviewed scientific journal covering research on environmental science and quality that was established in 1973 by Academic Press in London ae5055048c

International Journal of Environmental Research and Public Health Tchounwou. The International Journal of Environmental Research and Public Health is a peer-reviewed open access scientific journal that was established in 2004 and The International Journal of Environmental Research and Public Health is a peer-reviewed open access scientific journal that was established in 2004 and is published by MDPI. The journal covers all aspects of environmental health sciences and public health. The editor-in-chief is Paul B ae5055048c

International Journal of Environmental Science and Technology It was established in 2004 and is published by Springer Science+Business Media. The editor-in-chief is Madjid Abbaspour. Journal of Environmental Science and Technology is a monthly peer-reviewed scientific journal covering environmental science, technology, engineering The International Journal of Environmental Science and Technology is a monthly peer-reviewed scientific journal covering environmental science, technology, engineering, and management ae5055048c

Chemical engineering Chemical engineers develop economical commercial processes to convert raw materials into useful products. The work of chemical engineers can range from the utilization of nanotechnology and nanomaterials in the laboratory to large-scale industrial processes that convert chemicals, raw materials, living cells, microorganisms, and energy into useful forms and products. Chemical engineering is an engineering field which deals with the study of the operation and design of chemical plants as well as methods of improving Chemical engineering is an engineering field which deals with the study of the operation and design of chemical plants as well as methods of improving production. Chemical engineers are involved in many aspects of plant design and operation, including safety and hazard assessments, process design and analysis, modeling, control engineering, chemical reaction engineering, nuclear engineering, biological engineering, construction specification, and operating instructions. Chemical engineering uses principles of chemistry, physics, mathematics, biology, and economics to efficiently use, produce, design, transport and transform energy and materials ae5055048c

== History of formation == ae5055048c The journal is abstracted and indexed in: ae5055048c

Journal of Chemical & Engineering Data JCED is currently indexed in: Chemical Abstracts Service (CAS), SCOPUS, EBSCOhost, ProQuest, British Library, PubMed, Ovid, Web of Science, and SwetsWise. JCED is currently The Journal of Chemical & Engineering Data is a peer-reviewed scientific journal, published since 1956 by the American Chemical Society. The Journal of Chemical & Engineering Data is a peer-reviewed scientific journal, published since 1956 by the American Chemical Society ae5055048c

The current Editor is J. Ilja Siepmann. According to the Journal Citation Reports, the journal has a 2022 impact factor of 2.6. ae5055048c This journal is
