

How To Peel Ginger Root

Ginger is in the family Zingiberaceae, which also includes turmeric (*Curcuma longa*), cardamom (*Elettaria cardamomum*), and galangal. Ginger originated in Maritime Southeast Asia and was likely domesticated first by the Austronesian peoples. It was transported with them throughout the Indo-Pacific during the Austronesian expansion (c. 5,000 BP), reaching as far as Hawaii. Ginger is one of the first spices to have been exported from Asia, arriving in Europe with the spice trade, and was used by ancient Greeks and Romans. The distantly related dicots in the genus *Asarum* are commonly called wild ginger because of their similar taste. 331007da43

Herbal tea 2–6 hours) Essiac tea, blended herbal tea Fennel Gentian Ginger tea, made from the ginger root, can be made into herbal tea, known in the Philippines as 331007da43
