Emergency contraception in Spain del día anterior', un remedio contra los embarazos no deseados" [The 'day before pill', a remedy against unwanted pregnancies]. These include the morning-after pill and levonorgestrel. The situation in Spain is unique due to its history of access to contraception in general, the legislative timeline that legalized emergency contraception and under what conditions it could be dispensed, the impact of conscientious objection by doctors and pharmacists, cases in the Spanish judiciary related to conscientious objection, the relatively high cost compared to other countries in Europe and North America, the linkage of emergency contraception with efforts to reduce abortions by both left-wing and right-wing political parties, the impact of the COVID-19 pandemic on the distribution of emergency contraceptives, and usage statistics.
