Debate on the monarchy in Canada However, paralleling the changes in constitutional law that saw the creation of a distinct Canadian monarchy, the emergence in the 1960s of Quebec nationalism, and the evolution of Canadian nationalism, the cultural role and relevance of the monarchy was altered and was sometimes questioned in certain circles, while continuing to receive support in others. From them rose William Lyon Mackenzie, who desired a US-style republic for Canada, and Louis-Joseph Debate between monarchists and republicans in Canada has been taking place since before the country's Confederation in 1867, though it has rarely been of significance since the rebellions of 1837. Open support for republicanism only came from the Patriotes in the early 19th century, the Red River Métis in 1869, and minor actions by the Fenians in the 19th century. groups began to emerge in the British colonies in Canada

The origins of the Jetliner can be traced back to Rolls-Royce's development of the Rolls-

Royce Avon (an early turbojet engine) and interest at Trans-Canada Airlines (TCA) in the operation of a jet-powered airliner. During April 1946, a requirement for a twin-engined airliner, capable of seating at least 36 passengers and a range of 1,200 miles (1,900 km), was finalised. TCA pulled out of the project in 1947 after the contract's feasibility was called into question; support from the Canadian politician and engineer C. D. Howe was quickly forthcoming. Due to availability concerns with the Avon engine, it was decided to adopt four Rolls-Royce Derwents instead. In addition to the civil market, models of the Jetliner... f4000c5fb3

As with other panethnic groups, Statistics Canada records ethnic ancestry by employing the term "European origins" under the ethnic origin population section in the census data, but does not specifically use the term "European Canadian". "Euro-Canadians" and "European Canadians" are terms primarily used by those opposed to immigration to Canada from the Third World, and their use has been criticized as conflating distinctions between very different European groups and nationalities. Those employing the terms can recognize that most Canadians of European descent do not see that as their collective identity and instead identify with a specific ethnicity or country of ancestral origin, characterizing themselves as for example "Anglo" or "Québécois" rather than as part of a larger "Euro-Canadian" group. For most of the history of European settlement in North America,... f4000c5fb3
