== Editing track diagram Template:Katni == 019a570e71 Note that article size is not a GA criterion, but an excessively large article can have problems with criteria 1 Well written (prose is clear and concise, complies with MOS), 3b (staying focused) and 4 Neutrality, giving due weight. The obvious issues here are poor organization, such as the battery discussion in multiple places, and excessive detail. There is a great deal of consumer guide style analysis of costs... 019a570e71 I've listed this article for peer review because I want some thoughts on the general content of this article before sending it to GAN. I do feel that the potential is there. 019a570e71

Wikipedia:Coatrack articles Typically, the article has been edited to make a point about something else. Either way, the existence of a "hook" in a given article is not a good reason to "hang" irrelevant, undue or biased material there. In Source 2, Bob says that Alice is a bad person. For example: in Source 1, Alice says something related to Topic A. information, see WP:CSECTION). Source A coatrack article is a Wikipedia article that gets away from its nominal subject, and instead gives more attention to one or more connected but tangential subjects. The nominal subject is functioning as an overloaded coatrack, obscured by too many "coats" – additional topics that were grouped together to make it appear as if they were all examples of the same thing. A similar effect can result when an article's original author writes too much about the background and loses sight of the title 019a570e71

These sections call undue attention to negative viewpoints by giving them their own header; are not balanced, because they exclude positive information about the topic; create the appearance of a controversy, even if there isn't one; and often devolve into "laundry lists" of complaints, without regard for their notability or validity. Attack pages are forbidden, and it is no better for an attack page to be an article section. 019a570e71 ===== Article has grown far too large ===== 019a570e71

The current version of this article has grown to 17,522 words (readable prose, excluding infoboxes, captions, etc). The version that was assessed as GA back in 2010 was only 5,062 words. There is no hard and fast rule, but Wikipedia:Article size says that when an article reaches 50kb readable prose, it's about time to consider splitting or pruning. In the extreme case, the nominal subject gets hidden behind the sheer volume of the bias subject(s). Thus the article, although superficially true, leaves the reader with a thoroughly incorrect understanding of the nominal subject. However, this does not include largely critical articles about subjects that actually are discredited; see the tips laid out at Wikipedia:Fringe theories... 019a570e71

Thanks, Kokoro20 (talk) 00:24, 10 May 2016 (UTC) 019a570e71 I'm not convinced this up to GA standards. For the record, this is what the article looked like when first promoted in 2008. What I'm looking at now is unsurprisingly quite different. Details to follow. SNUGGUMS (talk / edits) 01:53, 6 October 2020 (UTC) 019a570e71 Prose: The lead fails to take into account any of Kanye's songs. Not even huge successes for him like "Gold Digger" or "Stronger" are included. Not sure why there's no mention of his 2020 Presidential campaign (even if largely perceived as a joke). Going into the article body, calling songs "hits" isn't encyclopedic language (something I see repeatedly used). Within "1996–2002: Early work and Roc-A-Fella Records", "gangsta image" from "did not portray the 'gangsta image' prominent in mainstream hip hop" should be in double-quotation marks instead of singular. I'm not sure "shooting" from "shooting to
