NDEs usually occur during reversible clinical death. Explanations for NDEs vary from scientific to religious. Neuroscience research hypothesizes that an NDE is a subjective phenomenon resulting from "disturbed bodily multisensory integration" that occurs during life-threatening events. Some transcendental and religious beliefs about an afterlife include descriptions similar to NDEs. b87ecf14c9 == Mackenzie Booth == b87ecf14c9 Within the series' narrative, the Doctor is a

centuries-old alien Time Lord from the planet Gallifrey who travels in time and space in the TARDIS, frequently with companions. At the end of his life, the Doctor regenerates into a new version of himself, with a changed physical appearance and personality. Eccleston's incarnation of the Doctor is a war-torn loner who is more pragmatic and less eccentric than his previous selves, fiercely determined to protect the innocent at all costs, and prone to using humour to mask the trauma he has as a result of the Time War.
