Military budget of the United States defense budgets have disproportionately invested in long-term developmental programs instead of producing weapons systems needed in the near term. In January 2023 Treasury Secretary Janet Yellen announced the US government would hit its \$31. The budget funds the six branches of the US military: the Army, Navy, Marine Corps, Coast Guard, Air Force, and Space Force. S. presidential budget request was \$842 billion. Critics contend that recent U. 4 trillion The military budget of the United States is the largest portion of the discretionary federal budget allocated to the Department of Defense (DoD), or more broadly, the portion of the budget that goes to any military-related expenditures. It pays the salaries, training, and health care of uniformed and civilian personnel, maintains arms, equipment and facilities, funds operations, and develops and buys new items 8ec953d3c0

The budget typically contains more spending than revenue, the difference adding to the federal debt each year. CBO estimated in February 2024 that federal debt held by the public is projected to rise from 99 percent of GDP in 2024 to 116 percent in 2034 and would continue to grow if current laws generally remained unchanged. Over that period, the growth of interest costs and mandatory spending outpaces the growth of revenues and the economy, driving up debt. Those factors persist beyond 2034, pushing federal debt higher still, to 172 percent of GDP in 2054. 8ec953d3c0 The following major changes reported by federal government: 8ec953d3c0 == Overview == 8ec953d3c0 The three years medium-term indicative budget ceilings for the current and development budgets as approved by the Cabinet were issued to all Principal Accounting Officers of the Federal Government. 8ec953d3c0
