Macassar oil, a Hair conditioner is a hair care cosmetic product used to improve the feel, texture, appearance and manageability of hair. For centuries, natural oils have been used to condition human hair. Various other benefits are often advertised, such as hair repair, strengthening, or a reduction in split ends. Its main purpose is to reduce friction between strands of

hair to allow smoother brushing or combing, which might otherwise damage the fibres. Because the hair shaft is made of dead cells that cannot renew themselves, conditioners do not repair hair biologically; they deposit material that coats the fibre and fills damaged areas of the cuticle, leaving a smoother surface

== History == Both men and women sometimes shave their chest hair, abdominal hair, leg hair, underarm hair, pubic hair, or any other body hair. Head shaving is much more common among men. It is often associated with religious practice, the armed forces, and some competitive sports such as swimming, bodybuilding, and extreme sports. Historically, head shaving has also been used to humiliate, punish, for purification or to show submission to an authority. In more recent history, head shaving has been used in fund-raising efforts, particularly for cancer research organizations and charitable organizations which serve cancer patients. The shaving of head hair is also sometimes done

by cancer patients when their treatment may result in hair loss, and by people experiencing male pattern baldness. 568ec6f839 Long lustrous female hair is generally rated attractive by both men and women across cultures. The prevalence of trichophilia (hair partialism or fetishism) is 7% in the population, and very long hair is a common subject of devotion in this group. 568ec6f839

African-American hair In recent years, movements like the natural hair movement and laws such as the CROWN Act have helped promote acceptance and protect against hair-based discrimination. Beyond appearance, Black hair has strong cultural, historical, and social meaning. It is most commonly tightly coiled or curly, but it can vary in texture and density. It has been used to express identity, creativity, and community, while also being shaped by discrimination and beauty standards. The oldest known oil paintings were created by Buddhist artists in Afghanistan, and date back to the 7th century AD. Oil paint was later developed by Europeans for painting statues and woodwork from at least the 12th century, but its common use for painted images began with Early Netherlandish painting in Northern Europe, and by the height of the Renaissance, oil painting techniques had almost completely replaced the use of egg tempera

paints for panel paintings in most of Europe, though not for Orthodox icons or wall paintings, where tempera and fresco, respectively, remained the usual choice. 568ec6f839
