Parkrun was founded by Paul Sinton-Hewitt on 2 October 2004 at Bushy Park, in London, England; it was originally called the Bushy Park Time Trial. It grew into a network of similar events called the UK Time Trials, before adopting the name Parkrun in 2008 and expanding into other countries. The first event outside the United Kingdom was launched in Zimbabwe in 2008, followed by Denmark in 2009, South Africa and Australia in 2011, and the United States in 2012. 1a6574edfb With origins dating back to the formation of the New River Company in 1609, Thames Water was established in 1989 during privatisation of the water industry in England and Wales. The name of the company reflects its role serving the drainage basin of the River Thames; water is sourced from the Thames as well as a number of other rivers and boreholes. 1a6574edfb

Among road running events, the 5K distance is mostly popular with novice or infrequent runners or joggers as it is comparatively easier to complete the distance without endurance training. The 5K distance also makes the distance suitable for people looking to improve or maintain their general physical fitness, rather than develop long-distance running abilities. The brevity of the distance means that less time is required to take part in the activity and that people from a wide range of ages and abilities may participate. From a physiological perspective, five kilometres is towards the low end of endurance running. 1a6574edfb == Mobile internet == 1a6574edfb
