Equal consideration of interests Jeremy Bentham argued that a being's capacity to suffer is what is morally relevant when considering their interests, not their capacity for reason. Singer asserts that if all beings, not just humans, are included as having interests that must be considered, then the principle of equal consideration of interests opposes not only racism and sexism, but also speciesism. The term "equal consideration of interests" first appeared in Australian moral philosopher Peter Singer's 1975 book *Animal Liberation*. interests is a moral principle that states that one should both include all affected interests when calculating the rightness of an action and weigh those interests The principle of equal consideration of interests is a moral principle that states that one should both include all affected interests when calculating the rightness of an action and weigh those interests equally a1a8960fcc

Among notable stories, Shay Sorrells grew up in foster care while her mother unsuccessfully struggled with heroin addiction, while Abby Rike lost her husband and children in a head-on collision caused by a speeding driver. Amanda Arlauskas became a contestant after winning a public vote against Erinn Egbert (who got at-home special assistant packages and made a cameo appearance in the week 12 episode) held during the Season 7 live finale. Contestant Daniel Wright was a contestant in Season 7 and has returned to "finish what he started". a1a8960fcc Holistic development sees the child in the round, as a whole person – physically, emotionally, intellectually, socially, morally, culturally, and spiritually. Learning about child development involves studying patterns of growth and development, from which guidelines for 'normal' development are construed. Developmental norms are sometimes called milestones – they define the recognized development pattern that children are expected to follow. Each child develops uniquely; however, using norms helps in understanding these general patterns of development while recognizing the wide variation between individuals. a1a8960fcc
