In 2018, The CBC published "Deadly Force", an investigative report described as "the first country-wide database of every person who died or was killed during a police intervention", which documented 461 fatal police encounters in Canada between 2000 and 2017, suggesting the average is closer to 26 people a year. "Deadly Force" also recorded an increasing average yearly number of police-involved deaths over time. At the moment, Statistics Canada only tracks fatal police shootings if the officer involved is criminally charged. 497839bf4c .exe 497839bf4c Create a command file, for example ListCheckWiki64.txt with the following contents: 497839bf4c 1556 Shaanxi earthquake 497839bf4c User:Ktimo/Kasibante Timothy 497839bf4c Run WPCleaner in the command line with a command such as: 497839bf4c User:Ktgotlund/Countryside Lake 497839bf4c
