Feminist perspectives on sex work The sex industry is defined as the system of supply and demand which is generated by the existence of sex work as a commodity. reason that the sex industry sees such high instances of undermined female autonomy and sexual wellness is due to the social stigmatization which is rooted Feminist views on sex work vary widely, depending on the type of feminism being applied. The final component of the sex industry lies in the production and selling of pornography. The quotations are added since some feminist ideologies believe the commodification of women's bodies is never autonomous and therefore subversive or misleading by terminology. With the distinctions between feminist perspectives, there are many documented instances from feminist authors of both explicit and implied feminist standpoints that provide coverage on the sex industry in regards to both "autonomous" and "non-autonomous" sex trades. The sex industry can further be segregated into the direct sex industry, which mainly applies to prostitution, and the indirect sex industry, which applies to sexual businesses which provide services such as lap dancing 368a9c5b75
