Fever (Dua Lipa and Angèle song) It was originally intended to be placed on the standard edition of the album as a solo version by Lipa. The song was written by the singers alongside Caroline Ailin, Jacob Kasher Hindlin, Julia Michaels and the sole producer Ian Kirkpatrick. Lyrically, the song uses a metaphor of sickness to demonstrate an infatuation and addresses the excitement of being with someone where one almost develops a fever, with the two singers acting as counterpoints to one and other. The song was released for digital download and streaming on 29 October 2020, through Warner Records as a single. It is a dance-pop, deep house and nu-disco song with 2000s Eurodance elements and a disco-pop production that features Afrobeat-tinged synth-pop beats. The increase in set-point triggers increased muscle contractions and causes a feeling of cold or chills. This results in greater heat production and efforts to conserve heat. When the set-point temperature returns to normal, a person feels hot, becomes flushed, and may begin to sweat. Rarely a fever may trigger a febrile seizure, with this being more common in young children. Fevers do not typically go higher than 41 to 42 °C (106 to 108 °F). f6ef17c138 Selected by the Phoenix Mercury with the 13th overall pick in the 2019 WNBA draft, Cunningham played for the team in her first six seasons in the WNBA, developing into one of the league's most accurate three-point specialists.
