CT scanners use a rotating X-ray tube and a row of detectors placed in a gantry to measure X-ray attenuations by different tissues inside the body. The multiple X-ray measurements taken from different angles are then processed on a computer using tomographic reconstruction algorithms to produce tomographic (cross-sectional) images (virtual "slices") of a body. CT scans can be used in patients with metallic implants or pacemakers, for whom magnetic resonance imaging (MRI) is contraindicated. a8dbc2f7cc == Autonomous institutions == a8dbc2f7cc The event includes a seminar to be conducted with a panel of experts from the industry and the media on the growth and technical advancement of Punjabi cinema. Members may also make small regular savings contributions over a few months until there is enough money in the group to begin lending. Funds may then be lent back to the members or to others in the village for any purpose. In India, many SHGs are linked with banks for the delivery of micro-credit. a8dbc2f7cc

Self-help group (finance) 106. EDA and APMAS Self-Help Groups in India: A Study of the Lights and Shades, CARE, CRS, USAID A self-help group (commonly abbreviated SHG) is a financial intermediary committee usually composed of 12 to 25 local women between the ages of 18 and 50. A SHG is generally a group of people who work on daily wages who form a loose grouping or union. Operational Guide, Kumarian Press, Bloomfield, CT, 2005, p. Money is collected from those who are able to donate and given to members in need. Most self-help groups are in India, though they can be found in other countries, especially in South Asia and Southeast Asia a8dbc2f7cc

The group offering programmes in disciplines including Engineering, Pharmaceutical Sciences, Architecture & Design, Hotel Management & Airline Tourism, Sciences, Arts, Commerce, Education via its educational entities of Higher education viz CTU and CT Institutions,

Jalandhar (16 Professional Institutes affiliated with government universities on two campuses). Another major group of Republican moderates in Congress is the Republican Main Street Caucus, which existed briefly from 2017 to 2019 and was re-formed in 2021. Its predecessor, the Wednesday Group, was first founded in the House between 1961 and 1963 and then in the Senate around...

Republican Governance Group In 2025, Roll Call wrote, "the group is less united from a singular political vision than a determination to shape legislation that's rooted in pragmatism". Governance Group, originally the Tuesday Lunch Bunch and then the Tuesday Group until 2020, is a group of moderate Republicans in the United States House of Representatives The Republican Governance Group, originally the Tuesday Lunch Bunch and then the Tuesday Group until 2020, is a group of moderate Republicans in the United States House of Representatives. It has historically been considered a center to center-right congressional caucus, with its members primarily from competitive House districts. It was founded in 1994 in the wake of the Republican takeover of the House; the Republican House caucus came to be dominated by conservatives

Since its development in the 1970s, CT scanning has proven to be a versatile imaging technique. While CT is most prominently used in medical diagnosis, it can also be used to form images of non-living objects. The 1979 Nobel Prize in Physiology or Medicine was awarded jointly to British electrical engineer Godfrey Hounsfield and South African-American physicist Allan MacLeod Cormack "for the development... == Statistics == CTA can be used to examine blood vessels in many key areas of the body including the brain, kidneys, pelvis, and the lungs. On September 30, 2025, it was reported that Blackboard's current parent company, Anthology, would be acquired by private equity firms Nexus Group and Oaktree Capital Management under a Chapter 11 bankruptcy reorganization, in which the company filed for bankruptcy that same day.

WebCT that is licensed to colleges and other institutions and used in many campuses for e-learning. To their WebCT courses, instructors can add such tools WebCT (Course Tools) or Blackboard Learning System, now owned by Blackboard, is an online proprietary virtual

learning environment system that is licensed to colleges and other institutions and used in many campuses for e-learning. At its height, it was in use by over 10 million students in 80 countries. WebCT is significant in that it was the world's first widely successful course management system for higher education. The latest versions of this software are now called Webcourses. To their WebCT courses, instructors can add such tools as discussion boards, mail systems, and live chat, along with content including documents and web pages
