

Map Of Greenland And Iceland

The island is unglaciated with two lakes between two mountain ridges. The peak in its eastern end reaches 660 metres (2,165 feet). The sea around the island is rarely free from ice. 50fd8b1422

History of Greenland There has been no evidence discovered that Greenland was known to Norsemen until the 9th century AD, when Norse Icelandic explorers settled on its southwestern coast. Their descendants most likely died out and were replaced and succeeded by several other human groups migrating from continental North America since then. The ancestors of the Greenlandic Inuit who live there today appear to have migrated there later, around the year 1200, across the Nares Strait from northern Canada. that Greenland was known to Norsemen until the 9th century AD, when Norse Icelandic explorers settled on its southwestern coast. The ancestors of the Greenlandic The history of Greenland is a history of life under extreme Arctic conditions: currently, an ice sheet covers about eighty percent of the island, restricting human activity largely to the coasts. The first humans are thought to have arrived in Greenland around 2500 BC 50fd8b1422

Geography of Greenland Greenland is located between the Arctic Ocean and the North Atlantic Ocean, northeast of Canada and northwest of Iceland. A sparse population is confined to small settlements along certain sectors of the coast. The territory comprises the island Greenland is located between the Arctic Ocean and the North Atlantic Ocean, northeast of Canada and northwest of Iceland. The territory comprises the island of Greenland—the largest island in the world—and more than a hundred other smaller islands (see alphabetic list). 2-kilometre-long (0. Greenland possesses the world's second-largest ice sheet. 75 mi) border with Canada on Hans Island. Greenland has a 1 50fd8b1422

The sea has Arctic climate with regular northern winds and temperatures rarely rising above 0 °C (32 °F). It previously contained the Odden ice tongue (or Odden) area, which extended eastward from the main East Greenland ice edge in the vicinity of 72–74°N during the winter and acted as a key winter ice formation area in the Arctic. The West Ice forms in winter in the Greenland Sea, north of Iceland, between Greenland and Jan Mayen... 50fd8b1422

Greenland Connect Two additional 10 Gbit/s Wavelength were installed in the summer of 2010. The cable has cable landing points at:. The cable contains two fibre pairs specified Greenland Connect is a submarine communications cable system that connects Canada, Greenland, and Iceland. Greenland Connect is a submarine communications cable system

that connects Canada, Greenland, and Iceland. The cable contains two fibre pairs specified for 128*10 Gbit/s wavelength each. Initial lit capacity is 1*10 Gbit/s for each fibre pair 50fd8b1422

== Overview == 50fd8b1422 1000: Eastern Settlement and Western Settlement established. 50fd8b1422 1000: Leif Eiriksson departs Greenland for his voyage to what is now Labrador. By now, Christianity is well established on the island. 50fd8b1422

Greenland national football team The team is currently members of CONIFA, an international governing body for association football teams that are not affiliated with FIFA. Most of the matches they have played have been against the Faroe Islands and Iceland, but neither of the two consider those games full internationals. In their second match on 3 July, Greenland played the hosts and full FIFA members The Greenland national football team (Greenlandic: Kalaallit nunaanni isikkamik arsarnermi nunanut allanut unammisartut; Danish: Grønlands fodboldlandshold) represents Greenland in non-FIFA international tournaments. In May 2024, it was announced that Greenland had officially applied to become a member of CONCACAF, however the application was later rejected. Although it has the same status as the Faroe Islands within the Kingdom of Denmark, Greenland is not, unlike the Faroe Islands national football team, a member of FIFA nor of any continental confederation and therefore is not eligible to enter the World Cup or other sanctioned tournaments. It is controlled by the Football Association of Greenland. Sauðárkrókur in Iceland as part of the Greenland Cup, a friendly tournament 50fd8b1422

Greenland Sea The Greenland Sea is often defined as part of the Arctic Ocean, sometimes as part of the Atlantic Ocean. The Greenland Sea is often defined as part of the Arctic Ocean, sometimes as part of the Atlantic The Greenland Sea (Danish: Grønlandshavet) is a body of water that borders Greenland to the west, the Svalbard archipelago to the east, Fram Strait and the Arctic Ocean to the north, and the Norwegian Sea and Iceland to the south. However, definitions of the Arctic Ocean and its seas tend to be imprecise or arbitrary. In general usage, the term "Arctic Ocean" would exclude the Greenland Sea. the north, and the Norwegian Sea and Iceland to the south. In oceanography, the Arctic Ocean and Nordic Seas are often referred to collectively as the "Arctic Mediterranean Sea", a marginal sea of the Atlantic. In oceanographic studies, the Greenland Sea is considered

part of the Nordic Seas, along with the Norwegian Sea 50fd8b1422

Timeline of Greenland intentionally navigate to Greenland. 982: The Norwegian-Icelandic viking known as Eric the Red is banished from Iceland. This page is a historical timeline of the island known as Greenland or Kalaallit Nunaat. He sails off and sights the island 50fd8b1422

While Inuit survived in the icy world of the Little Ice Age, the early Norse settlements, known as the Eastern Settlement, along the southwestern coast disappeared, leaving Inuit as the only inhabitants of the island for several centuries. During this time, Denmark-Norway, apparently believing the Norse settlements had survived, continued to claim sovereignty over the island despite the lack of any contact between the Norsemen (specifically... 50fd8b1422 c.1500: The last Norse settlements have vanished leaving... 50fd8b1422 == General reference == 50fd8b1422 1355: In 1355 union king Magnus IV of Sweden and Norway (Magnus VII of Norway; The Swedish king had been crowned king of Norway through birthright) sent a ship (or ships) to Greenland to inspect its Western and Eastern Settlements. Sailors found settlements entirely Norse and Christian. The Greenland carrier (Groenlands Knorr) made the Greenland run at intervals till 1369, when she sank and was apparently not replaced. 50fd8b1422 == Statistics == 50fd8b1422 Cable was laid from Trinity Bay, Newfoundland, to Greenland by the "Maersk Responder" supported by the "Blue Castor" during July to October 2008 and from Landeyjarsandur to Greenland by the "Ile de Sein" supported by the "Ile de Brehat" 50fd8b1422 Greenland - autonomous Nordic nation that is a constituent country of the Kingdom of Denmark. Greenland comprises the Island of Greenland and adjacent islands located between the Arctic and Atlantic Oceans, east of the Canadian Arctic Archipelago. Though physiographically and ethnically an Arctic island nation associated with the continent of North America, politically and historically, Greenland is associated with Europe, specifically Iceland, Norway, and Denmark. In 1978, Denmark granted home rule to Greenland, making it an equal member of the Danish Realm. Greenland is, by area, the world's largest island which is not a continent in its own right. 50fd8b1422 986: Norse settlement of Greenland begins. 50fd8b1422

Greenland The capital and largest city is Nuuk. It is the world's largest island and lies between the Arctic and Atlantic oceans, east of the Canadian Arctic Archipelago. They are thus citizens of the European Union (EU), although Greenland is not part of the EU. 2-kilometre (0. Kaffeklubben Island off the northern coast is the world's northernmost undisputed point of land - Cape Morris Jesup on the main island was thought to be so until the 1960s. Citizens of Greenland are citizens of Denmark. 4 billion kr. Greenland is an autonomous territory of the Kingdom of Denmark and is the largest of the kingdom's three constituent parts by land area, the others being Greenland is an autonomous territory of the Kingdom of

Denmark and is the largest of the kingdom's three constituent parts by land area, the others being Denmark proper and the Faroe Islands.

Economically, Greenland is heavily reliant on aid from Denmark, which has averaged 5. It shares a small 1. 75 mi) border with Canada on Hans Island. (€724 million) annually in the period 2019–2023, amounting to more than 20% of the territory's gross domestic product 50fd8b1422

The vegetation is generally sparse, with the only patch of forested land being found in Nanortalik Municipality in the extreme south near Cape Farewell. 50fd8b1422 982: The Norwegian-Icelandic viking known as Eric the Red is banished from Iceland. He sails off and sights the island. He decides to name it Greenland to make the island appear more attractive. 50fd8b1422 == Norwegian colonization and colony == 50fd8b1422 Landeyjarsandur, South Iceland 50fd8b1422 Greenland sits atop the Greenland plate, a subplate of the North American Plate. The Greenland craton is made up of some of the oldest rocks on the face of the earth. The Isua greenstone belt in southwestern Greenland contains some of the oldest dated rocks on Earth, dated at 3.7–3.8 billion years old. 50fd8b1422

Outline of Greenland Greenland is, by The following outline is provided as an overview of and topical guide to Greenland:. In 1978, Denmark granted home rule to Greenland, making it an equal member of the Danish Realm. specifically Iceland, Norway, and Denmark 50fd8b1422

1263: Greenland then becomes crown dependency of Norway. 50fd8b1422 Castle Island is located in Saint Andrew Bay, east of Hendrik Island, in the mouth area of Sherard Osborn Fjord. It is separated from Hendrik Island by a 5 kilometres (3 miles) wide sound. 50fd8b1422 The climate is arctic to subarctic, with cool summers and cold winters. The terrain is mostly a flat but gradually sloping icecap that covers all land except for a narrow, mountainous, barren, rocky coast. The lowest elevation is sea level and the... 50fd8b1422 Milton, Trinity Bay, Newfoundland and Labrador, Canada 50fd8b1422 Nuuk, Greenland 50fd8b1422

Geography of Iceland It is the westernmost European country when not including Greenland and has more land covered by glaciers than continental Europe. Iceland is an island country at the confluence of the North Atlantic and Arctic oceans, east of Greenland and immediately south of the Arctic Circle, atop Iceland is an island country at the confluence of the North Atlantic and Arctic oceans, east of Greenland and immediately south of the Arctic Circle, atop the constructive boundary of the northern Mid-Atlantic Ridge. Its total size is 103,125 km² (39,817 mi²) and possesses an exclusive economic zone of 751,345 km² (290,096 mi²). The island country is the world's 18th largest in area and one of the most sparsely populated 50fd8b1422

Though a part of the continent of North America, Greenland was politically and culturally associated with the European kingdom of Norway from 986

until the early 15th century. From the 18th century, following the union of Denmark and Norway... At its endpoints, the cable is colocated with the "DANICE" cable in Iceland and the Eastlink (formerly Persona Communications) "Trans-Gulf" cable in Newfoundland. Together these cables interconnect the networks of major carriers in Europe and North America. The operator of this cable is TELE Greenland as part of its "4,800-km fibre optic network between Iceland and Greenland and between Greenland and Newfoundland and Labrador." Qaqortoq, Greenland 978: Snæbjörn galti Hólmsteinsson becomes the first Norseman to intentionally navigate to Greenland. The northernmost headland of the island is Cape Cleveland and the southernmost Cape Gray.
