Dark triad C. , & Hirschi, A. Paulhus and Kevin M. Relationships of the dark triad of personality with objective and subjective The dark triad is a psychological construct of personality traits, first introduced by Delroy L. Williams in 2002, that describes the relationship between three notably aversive but non-pathological personality traits: Machiavellianism, sub-clinical narcissism, and sub-clinical psychopathy. These personality traits are called dark because they are believed to contain aversive qualities. , Keller, A. (2016). Do bad guys get ahead or fall behind. D

Ledger's portrayal of the Joker was influenced by the graphic novels *Batman: The Killing Joke* (1988) and *Arkham Asylum: A Serious House on Serious Earth* (1989). The character retains his traditional purple-and-green color palette, while his disfigured, clown-like appearance is achieved through smeared makeup concealing facial scars resembling a Glasgow smile, rather than the chemically bleached skin depicted in some comic book origins. Additional inspiration for the performance came from the works of painter Francis Bacon, the character Alex DeLarge from Anthony Burgess' 1962 novel *A Clockwork Orange* and its 1971 film adaptation of the same name, as well as elements of punk rock culture. High scores in these traits have been found to statistically increase a person's likelihood of committing crimes, cause social distress, and create severe problems for organizations, especially if found in people who are...
