COVID-19 pandemic in Sri Lanka Welikada Prison tested positive for COVID-19. The first case of the virus in Sri Lanka was confirmed on 27 January 2020, after a 44-year-old Chinese woman from Hubei, China, was admitted to the Infectious Disease Hospital in Angoda, Sri Lanka. Two people from The COVID-19 pandemic in Sri Lanka is part of the ongoing worldwide pandemic of coronavirus disease 2019 (COVID-19) caused by the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) virus. As of 15 December 2022, a total of 671,776 COVID-19 cases had been recorded in the country, 654,919 patients had recovered from the disease, and 16,814 patients had died. On the same day, another COVID-19 cluster was declared in the Kandakadu Rehabilitation Centre 499ce83b38

COVID-19 pandemic in Ontario Retrieved October 6, 2020. "Ontario The COVID-19 pandemic in Ontario was a viral pandemic of coronavirus disease 2019 (COVID-19), a novel infectious disease caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). Ontario has had the largest number of confirmed COVID-19 cases among Canada's provinces and territories, but due to having the largest population, only ranks sixth adjusted per capita. CTV News Toronto. "Ontario now discouraging asymptomatic COVID-19 testing at assessment centres". The first confirmed case of COVID-19 in Canada was announced on January 25, 2020, involving a traveller who had recently returned to Toronto from travel in China, including Wuhan. (September 24, 2020). Ontario surpassed one million lab-confirmed COVID-19 cases on January 24, 2022; one day before the anniversary of the first confirmed case on January 25, 2020 499ce83b38

On March 17, 2020, a state of emergency was declared by Premier Doug Ford. This included the gradual implementation of restrictions on gatherings and commerce. 499ce83b38

COVID-19 pandemic in Albania Both men later recovered. The first case in the Republic of Albania was reported in Tirana on 8 March 2020, when a patient and his adult son who had come from Florence, Italy tested positive. The COVID-19 pandemic in Albania was a part of the worldwide pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome The COVID-19 pandemic in Albania was a part of the worldwide pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) 499ce83b38

On 21 December 2020, health minister Ogerta Manastirliu announced that the country has decided to suspend flights to and from the UK until 6 January 2021 because of what was then a new COVID-19 mutation that transmits more quickly than other variants. All passengers arriving from the UK by land had to self-isolate for 14 days upon entry. The flight suspension took effect on Tuesday, 22 December. 499ce83b38 The service was the responsibility of the Secretary of State for Health and Social Care and the Minister of State for Social Care. It was then devolved to the Parliamentary Under-Secretary of State for Innovation at that ministry. The initial budget for the service was £15 billion, rising to £22bn in November 2020, and a further £15bn was allocated for 2021–2022 to bring the total for the two years to £37bn. Routine contact tracing was halted on 24 February 2022 when the service was closed. 499ce83b38 A 2023 study estimated that in its first year of use, the app's contact tracing function prevented an estimated 1 million cases, and 9,600 deaths. 499ce83b38 As of January 1, 2023, 2,998,106 Kentuckians had received at least one COVID-19 vaccine dose, equivalent to 67% of the population. 499ce83b38

NHS COVID-19 It was available for Android and iOS smartphones, and could be used by anyone aged 16 or over. a swab test of the unwell user and the outcome would determine further notifications to contacts: if the test confirmed infection with COVID-19, the NHS COVID-19 was a voluntary contact tracing app for monitoring the spread of the COVID-19 pandemic in England and Wales, in use from 24 September 2020 until 27 April 2023 499ce83b38

Two versions of the app were created. The first was commissioned by NHSX and developed by the Pivotal division of American software company VMware. A pilot deployment began in May 2020, but on 18 June development of the app was abandoned in favour of a second design using the Apple/Google Exposure Notification system. Scotland and Northern Ireland had separate contact tracing apps. 499ce83b38 As of 4 February 2023, 3,058,102 COVID-19 vaccine doses have been administered in Albania. 499ce83b38 Wide-ranging restrictions began on many aspects of life in the second half of March 2020; restrictions were relaxed in Wales during the summer once the first wave of the virus had passed. In the autumn of that year, with cases rising, restrictions began to be tightened again with individual areas being placed under localised lockdowns. A two-week complete "circuit-breaker" lockdown began in late October. Rising cases and a new variant of the virus led to restrictions being increased again in December. The rollout of COVID-19 vaccinations and a fall in cases led to restrictions being relaxed in the spring and summer. Restrictions were briefly tightened and relaxed at around the end of 2021 due to a new variant of the virus. Most COVID-19 related legal restrictions concluded in Wales by the end of March and much of the infrastructure built up around managing the virus was wound down by the middle... 499ce83b38

COVID-19 pandemic in Ghana The first two cases in Ghana were confirmed on 12 March 2020, when two infected people arrived in Ghana, one from Norway and the other from Turkey. The COVID-19 pandemic in Ghana was a part of the worldwide pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome The COVID-19 pandemic in Ghana was a part of the worldwide pandemic of coronavirus disease 2019 (COVID-19) caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) 499ce83b38

The service provided temporary sites where samples were taken from individuals, the samples were then processed at a newly created network of laboratories, and the results were communicated; infected people were instructed to isolate themselves from others and asked to provide details of their recent close contacts, who are also told to isolate. Almost all of the work was outsourced to consultants and contractors, although some of the laboratories involved... 499ce83b38 The first cases of COVID-19 in India were reported on 30 January 2020 in three towns of Kerala, among three Indian medical students who had returned from Wuhan, the epicenter of the pandemic. Lockdowns were announced in Kerala on 23 March, and in the rest of the country on 25 March. Infection rates started to drop in September... 499ce83b38 == Timeline == 499ce83b38

NHS Test and Trace The programme was part of the UK Health Security Agency; the service and the agency were headed by Jenny Harries. The programme was NHS Test and Trace was a government-funded service in England, established in 2020 to track and help prevent the spread of COVID-19. NHS Test and Trace was a government-funded service in England, established in 2020 to track and help prevent the spread of COVID-19 499ce83b38

COVID-19 pandemic in Kentucky S. As of January 1, 2023, 1,667,275 cumulative cases of COVID-19 were confirmed, with 17,694 deaths. S. Commonwealth of Kentucky on March 6, 2020, when Governor Andy Beshear's office announced the first confirmed case in Cynthiana, Kentucky, and declared a state of emergency to ensure all entities
