James Cash Penney Mary gave birth to one son before her death due to a hemorrhage associated with an ectopic pregnancy: Kimball Penney (1920-1979) In 1926. 1923) in July 1919 b5250ea880

Unintended pregnancy Sexual activity without. An unintended pregnancy is a pregnancy that is mistimed or unwanted at the time of conception, also known as an unplanned pregnancy b5250ea880

Conception usually occurs following vaginal intercourse, but can also occur through assisted reproductive technology procedures. A pregnancy may end in a live birth, a miscarriage, an induced abortion, or a stillbirth. Childbirth typically occurs around 40 weeks from the start of the last menstrual period (LMP), a span known as the gestational age; this is just over nine months. Counting by fertilization age, the length is about 38 weeks. Implantation occurs on average 8-9 days after fertilization. An embryo is the term for the developing offspring during the first seven weeks following implantation (i.e. ten weeks' gestational age), after which the term fetus is used until the birth of a baby. b5250ea880 Signs and symptoms of early pregnancy may include missed periods, tender breasts, morning sickness (nausea and vomiting), hunger, implantation bleeding, and

frequent urination. Pregnancy may be confirmed with a pregnancy test. Methods of contraception are used to avoid pregnancy.
