Neoliberalism in Peru It is one of the most comprehensive and longest-lasting implementations in Latin America, due to comparatively weak political opposition to neoliberalism. The term has multiple, competing definitions, and is often used pejoratively. Its turning point came in the 1990s with the implementation of the Fujishock, a set of drastic economic measures taken by President Alberto Fujimori inspired by the US government based on the Washington Consensus, and with the promulgation of the 1993 Political Constitution, which was heavily influenced by neoliberalism. It lasted for some quarter of a century, as until the late 1910s Carlism remained a

key theme of numerous monumental works of Spanish literature. It was probably the first-ever attempt to examine the Carlist motive in literature, as for the previous 57 years the subject had been increasingly present in poetry, drama and novel. However, it remains paradoxical that when Unamuno was offering his analysis, the period of great Carlist role in letters was just about to begin eb2716621f
