

Ok Google Set Up My Device Android Phone

List of Google Easter eggs discover planets in a system. Google avoids adding Easter eggs to popular search pages and eggs that would negatively impact usability. Some easter eggs are created by employees in their 20% time. "Spells" may be "cast" on an Android phone by saying "Ok Google" followed by "Lumos" or "Nox" to turn the flashlight on and The American technology company Google has added Easter eggs into many of its products and services, such as Google Search, YouTube, and Android since the 2000s 92ca320893

As of March 2026, StatCounter estimates that Chrome has a 75.23% worldwide browser market share on personal computers. It is the most used browser on tablets having an estimated 48% market share. Chrome is also dominant on smartphones with around 67% market share. With a market share of 71.22% across all platforms combined as of December 2025, Chrome is the most used web browser in the world. Chrome has approximately... 92ca320893 On January 15, 2015, Google announced that it would stop producing the Google Glass prototype. The prototype was succeeded by two Enterprise Editions, whose sales were suspended on March 15, 2023. More than a decade later, Google would return to the extended reality space with Android XR, an operating... 92ca320893 The Samsung Galaxy S7 was an evolution of the prior year's model, with upgraded hardware, design refinements, and the restoration of features removed from the Galaxy S6, such as IP68 certification for water and dust resistance, as well as expandable storage with a MicroSD card. Succeeding the S6 and S6 Edge+, respectively, the Samsung Galaxy S7 was produced in a standard model with a display size of 5.1-inch (130 mm) as well as an Edge variant whose display is curved along the wide sides of the screen and also has a larger 5.5-inch (140 mm) display. For the S7 series, Samsung did not produce a direct 5.1-inch (130 mm) S6 Edge successor. The S7 Active features a... 92ca320893 == History == 92ca320893

Samsung Galaxy S7 The S7 series served as the successor to the Galaxy S6, S6 Edge, S6 Active and S6 Edge+ released in 2015. 3 or later, iPhones running iOS 5 or later, or BlackBerry devices running BlackBerry OS 7 or The Samsung Galaxy S7 and S7 Edge are Android-based smartphones manufactured, released and marketed by Samsung Electronics. The Samsung Galaxy S7 Active was unveiled on 4 June 2016, and released on AT&T in the United States on 10 June 2016. The S7 and S7 Edge were officially unveiled on 21 February 2016 during a Samsung press conference at Mobile World Congress, with a European and North American release on 11 March 2016. previous Samsung Galaxy or Android device running Android 4 92ca320893

In August 2024, the United States District Court for the District of Columbia ruled that Google held an illegal monopoly over Internet search and search advertising. The court found that Google maintained its market... 92ca320893 == Software == 92ca320893 == Models == 92ca320893

/e/ (operating system) /e/ is presented as privacy software that does not contain proprietary Google apps or services, and challenges the public to "find any parts of the system or default applications that are still leaking data to Google". /e/ is presented as privacy software that does not contain proprietary Google apps /e/ (also known as /e/ OS and /e/OS, formerly Eelo) is a fork of LineageOS, an Android-based mobile operating system, and associated online services. Android-based mobile operating system, and associated online services 92ca320893

Motorola Mobility was formed on January 4, 2011 after a split of the original Motorola Inc., founded in 1928, into two separate companies, with Motorola Mobility assuming the company's consumer-oriented product lines, including its mobile phone business, as well as its cable modems and pay television set-top boxes, while the enterprise and radio communication division continues as Motorola Solutions, a legal successor of the original company. In May 2012, Google acquired Motorola Mobility for US\$12.5 billion; the main intent of the purchase was to gain Motorola Mobility's patent portfolio, in order to protect other Android... 92ca320893 Most of Chrome's source code comes from Google's free and open-source software project known as Chromium, but Chrome is licensed as a proprietary freeware. WebKit was the original rendering engine for chrome, but Google eventually forked it to create the Blink engine; every version of Chrome uses Blink as of 2017, except for the version on IOS. 92ca320893

Google+ The network was launched on June 28, 2011, in an attempt to challenge other social networks, linking other Google products like Google Drive, Blogger, Google AdSense, and YouTube. Messenger, also called Huddle, was a feature available to Android, iPhone, and SMS devices for communicating through instant messaging within Circles Google+ (sometimes written as Google Plus, stylized as G+ or g+) was a social network owned and operated by Google until it ceased operations in 2019. The service, Google's fourth foray into social networking, experienced strong growth in its initial years, although usage statistics varied, depending on how the service was defined. Three Google executives oversaw the service, which underwent substantial changes that led to a redesign in November 2015 92ca320893

== About OS == 92ca320893 As of August 2026 builds based on Android versions up to 16 were available. 92ca320893 /e/ is a fork of LineageOS, which is a fork of the CyanogenMod and Android operating systems. /e/ uses MicroG, "an open source project that hijacks Google API calls" according to Ron Amadeo of Ars Technica, as an alternative for Google Play Services and geolocation.

Google Chrome The browser is also the main component of ChromeOS, on which it serves as the platform for web applications. Versions for Linux, macOS, iOS, iPadOS, and Android were later released, becoming the default browser on Android devices. Versions for Linux, macOS, iOS, iPadOS, and Android were later released, becoming the default browser on Android devices. It was launched in September 2008 for Microsoft Windows and was built with free software components from Apple WebKit and Mozilla Firefox. The browser is also the main component Google Chrome is a cross-platform web browser developed by Google 92ca320893

At the top of the presented search results is often a sponsored result section reflecting results sponsored by advertising revenue. Many search results are also prefixed by an AI overview response to the search query. The order of search results returned by Google is based, in part, on a priority rank system called PageRank which was originally developed in 1996 by Larry Page, Sergey Brin, and Scott Hassan. As of mid-2016, Google's search engine has begun to rely on deep neural networks. 92ca320893 Due to low user engagement and disclosed software design flaws that potentially allowed outside developers access to personal information of its users, the Google+ developer API was discontinued on March 7, 2019, and Google+ was shut down for business and personal use on April 2, 2019. 92ca320893 Some /e/ applications and sources are proprietary. /e/ includes a non-open-source maps app, Magic Earth. A privacy app was proprietary when first developed, then open source after release. 92ca320893 Google started selling a prototype of Google Glass to qualified "Glass Explorers" in the US on June 27, 2012, for a limited period for \$1,500, (with distribution of those purchases beginning on April 16, 2013), before it became available to the public on April 15, 2014. Google Glass was launched in 2013 but pulled in 2015, just seven months after its UK release, after a backlash around price and privacy. It has an integrated 5 megapixel still/720p video camera. The headset received a great deal of criticism amid concerns that its use could violate existing privacy laws. 92ca320893 The second-generation Pixel Buds (sometimes known as Pixel Buds 2 or Pixel Buds 2020 to distinguish them from the first-generation earbuds) were announced at the Pixel 4 hardware event on October 15, 2019. They were released on April 27, 2020 and debuted to positive reviews. 92ca320893

Pixel Buds " By opening the service to more devices, researcher The Pixel Buds is a line of wireless earbuds developed and marketed by Google. They integrate with the Google Assistant and support real-time translation with Google Translate. The first-generation Pixel Buds were launched on October 4, 2017, at the Made by Google launch event, and became available for preorder on the Google Store the same day. Google announced "Google Translate is available on all Assistant-optimized headphones and Android phones 92ca320893

Motorola Mobility The company has been a wholly owned subsidiary of Chinese company Lenovo since 2014, which handles device manufacturing and supply chain. order to protect other Android vendors from litigation. Shortly after the purchase, Google sold Motorola Mobility's cable modem and set-top box business to Motorola Mobility LLC, marketed and commonly known as Motorola (stylized in all-lowercase as motorola), is an American consumer electronics manufacturer primarily producing smartphones running Android software and other wearable accessories. Motorola Mobility is headquartered at Merchandise Mart in Chicago, Illinois, which houses all research and development and where its products are designed (with the exception of its tablets) 92ca320893

In June 2021, Google announced the Pixel Buds A-Series, a mid-range variant of the second-generation Pixel Buds. In May 2022, Google announced the Pixel Buds Pro, a premium variant of the Pixel Buds with additional features including active noise cancellation. In August 2024, Google announced the Pixel Buds Pro 2 with Gemini and with improved active noise cancellation. 92ca320893 == Google Search == 92ca320893

Google Search It uses algorithms to analyze and rank websites based on their relevance to the query and uses generative AI to respond to queries with non-search responses. The mobile apps exclusively feature Google Discover and a "Collections" Google Search (also known simply as Google) is a search engine operated by Google. Google offers a "Google Search" mobile app for Android and iOS devices. for Google results. It allows users to search or ask for information by entering keywords or phrases on a website page or in an installed application program. It is the most-visited website in the world; and as of 2025, it has a 90% share of the global search engine market 92ca320893

Google Glass Google Glass was Google Glass, or simply Glass, is a discontinued brand of smart glasses developed by Google's X Development (formerly Google X), with a mission of producing a ubiquitous computer. later, Google would return to the extended reality space with Android XR, an operating system that will power headsets and smartglasses. Google Glass displays information to the wearer using a head-up display. Wearers communicate with the Internet via natural language voice commands 92ca320893
