Environmentalism in Rio Grande do Sul Edi  es Environmentalism in Rio Grande do Sul refers to the movement constituted by scientists and laymen in defense of the environment of the Brazilian state of Rio Grande do Sul. Although there are some records of protests against environmental destruction as early as the 19th century, a more consistent movement only took shape in the mid-20th century, following scientific advances and realizing that the destruction and emerging threats at this time were already significant. Miranda, Evaristo Eduardo de (2004). Since then, environmentalism has proven to be a topic of growing popular appeal. (7).
