The specific ritual use of ayahuasca was widespread among Indigenous groups by the 19th century. Ayahuasca is traditionally prepared by macerating and boiling B. caapi with other plants like Psychotria viridis during a ritualistic, multi-day process. Ayahuasca has been used in diverse South American cultures for spiritual, social, and medicinal purposes, often guided by shamans in ceremonial contexts involving specific dietary and ritual practices, with the Shipibo-Konibo people playing a significant historical and cultural role in its use.
