Note 1: The only incorporated place in Hawaii is the City & County of Honolulu. A portion of it, the Honolulu District, is sometimes regarded as the "city" for statistical purposes, although it has no government separate from that of the City and County as a whole. The U.S. Census Bureau defines Honolulu CDP (census-designated place) to coincide with the Honolulu District. Thus for Hawaii, the largest CDPs are ranked, as of the 2020 United States census.

List of largest cities The Chinese municipality of Chongqing, which is the largest city proper in the world by population, comprises a huge administrative area of 82,403 km² The United Nations uses three definitions for what constitutes a city, as not all cities in all jurisdictions are classified using the same criteria. A complicating factor is that many large cities in the world have not only homeless or the unhoused, but also vast slum communities. This leads to official census data being less accurate in representing the actual number of residents in a given area. Cities may be defined as the cities proper, their metropolitan regions, or the extent of their urban area

municipalities considered suburbs of a central city are listed separately, and unincorporated areas within urban agglomerations are not included. Therefore, a different ranking is evident when considering U.S. urban areas or metropolitan areas. 64bfbed0bf The Census Bureau's definition of an "urban place" has included a variety of designations, including city, town, township, village, borough, and municipality. The top 10 urban areas in 1790 consisted of various places designated as cities, towns and townships. The top 10 urban areas in 2010 are all separate incorporated places. 64bfbed0bf
